

Installation Examples

Application

Where a neat straight edge is desired between floor coverings.

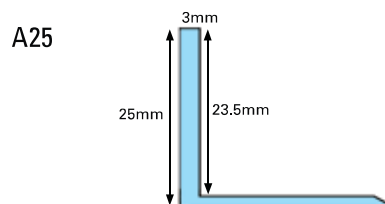

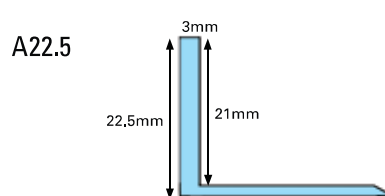

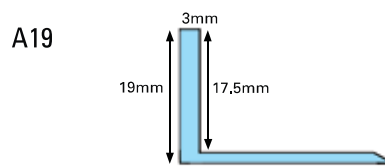

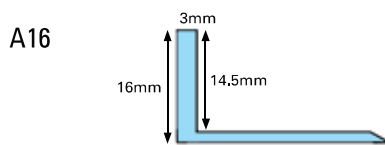

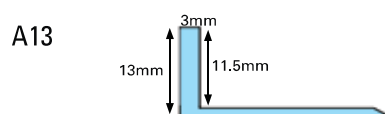

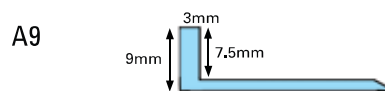

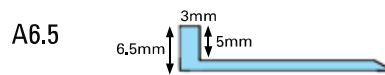

Typical applications include ceramics, carpet tiles, matwell frames and vinyl floors. For curved areas TagTrim TT profiles are required.

Finish:

Matt top edge. Polished to special order

Stock Lengths:

2.715m. Packed 6 lengths per tube

All bases supplied pre-drilled.

Tagtrim Formable Angles Aluminium

Tag Trim profiles can be formed on site to allow freedom of design where a neat edge is desired between floor coverings.

Bases with tags at 80mm centres for ease of curving.

Finish:

Matt top edge. Polished to special order

Stock Lengths:

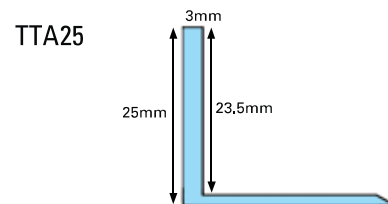

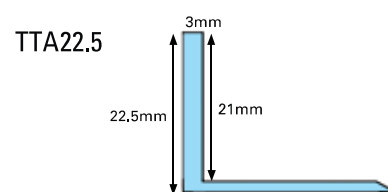

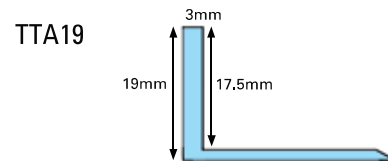

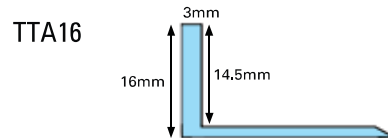

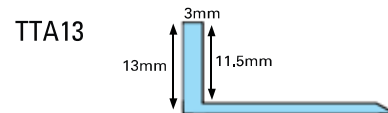

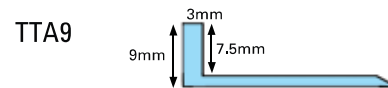

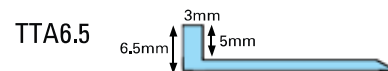

2.715m. Packed 6 lengths per tube

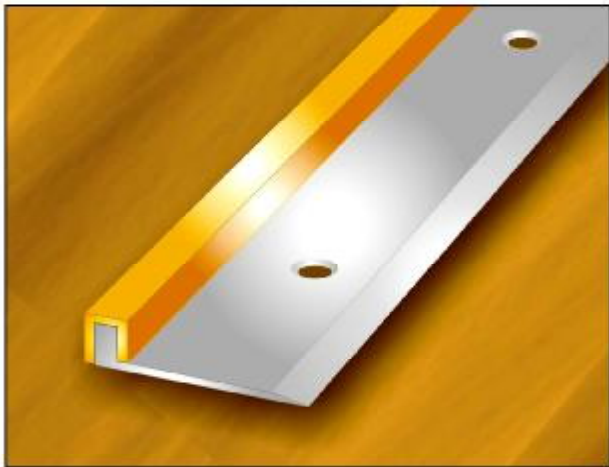

Symbols:

- A - Aluminium
- TT - TagTrim = Formable

The Original

Brass feature width cap detail on aluminium angles to define the edge between floorings.

Finishes

- Mill Brass
- Satin Brass
- Antique Brass
- Antique Bronze

Tag Trim Version

B6 tag trim profiles can be curved on site to form gradual curves in concave and convex styles.

Tag trim = formable

Bases with tags at 80mm centres for ease of curving.

Stock Lengths

2.715m. Packed 6 lengths per tube.

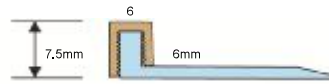

Bases

Pre-drilled.
