Cutlength service: Yes, max 400 cm width

Suitability: luxury domestic use. (Not suitable for wet areas e.g. bathrooms)

Colour may vary from batch to batch.

Due to hand weaving production process, imperfections are possible.

Installation: professional installation is recommended and essential to a good quality underlay. Avoid exposure to water and direct sunlight. Areas that might receive prolonged exposure to direct sunlight should be protected by the use of blinds or curtains.

Maintenance: to maintain your carpets appearance it is recommended that it is vacuumed at least three times per week to remove particles of dirt and dust by using an upright cleaner. It should be noted that overtime regular foot traffic will flatten the pile in main walkways causing areas of differential wear. This can cause the carpet to show areas of light and dark shading, this happens to all quality velour carpets and would not be accepted as a basis for any complaint. Fibre Shedding is a normal characteristic of heavy quality Viscose rugs which gets considerably reduced after initial usage.

Cleaning and Stain removal: only recommended by professional cleaning company's e.g. Highgrade www.highgradecleaning.co.uk. Clean Spills immediately by blotting with a clean dry white cloth. Do not rub.
