## How ...

### First treatment after installation

After installation your floor needs an extra oil treatment to make the surface more wear resistant. Use Woca Oil Conditioner for this.

- 1 Shake the container carefully. The floor must be free from dust before treatment.
- 2 Clean the floor with 125 ml Oil Refresher mixed into 5 liter of cold water.
- 3 Treat with a light wrung floor cloth or mop lengthwise of the floor. Immediately afterwards, dip floor cloth or mop into mixture and mop the floor with hard wrung floor cloth or mop again lengthwise of the wood.
- 4 Leave the floor to dry for approx 2 hours before use.

14 days later you can start the maintenance with the Natural Soap.

### Regular cleaning with Natural Soap

Natural Soap is ideal for the cleaning and maintenance of all oiled, UV oiled or soaped wood surfaces.

- 1 Natural Soap White is shaken carefully before use.
- 2 125 ml Natural Soap is mixed into 5 liter of cold water.
- 3 Always mop the floor with soap water on hard-wrung mop or cloth in order to reestablish the protective Natural soap film.
- 4 Leave the floor to dry for approx 2 hours before use.

### Annual cleaning with Oil Refresher

Oiled floors should be regularly maintained – normally once a year, but more often when it comes to floors exposed to extremely hard wear. Follow the instructions as described on top of this page.

*Please notice!*

*Risk of self-ignition: Due to the risk of self-ignition it is important that oil wetted cloths are soaked in water and disposed of in a tightly closed container after use.*

## All in one box...

– everything you need to clean and to do the maintenance of your oiled wooden floor

Natural Soap is a purpose-made quality soap, which due to its nourishing properties quickly closes the pores of the wood and protects against dirt and penetration of liquids.

Oil Refresher natural and white may be used for all oiled surfaces and is especially suitable for the yearly maintenance of wood surfaces.

#### Available in

The Maintenance Box is available in the colors Natural and White.

The box contains:  
1 liter Natural Soap | 250 ml Oil Conditioner |  
100 ml Rubio Monocoat Oil Plus

## How ...

### Restoration with Rubio Monocoat Oil Plus

This treatment is recommended where scratches or burn marks are present, or where heavy wear is showing either in patches or large areas of the floor. It also applies if a completely new color is desired over the entire surface area of a previously treated floor.

Scratches and burn marks:

- 1 Lightly sand the spot to be restored.
- 2 Eliminate dust.
- 3 Apply Rubio Monocoat Oil Plus with a cloth or sponge.
- 4 After a few minutes, wipe away any surplus product with a cloth or paper towel.
- 5 The surface can be used again after 24 to 36 hours.
