"The kids love splashing about and now with aquagrip I don't have to worry about them slipping on the floor, so when it comes to bathtime I can relax in peace."

discover

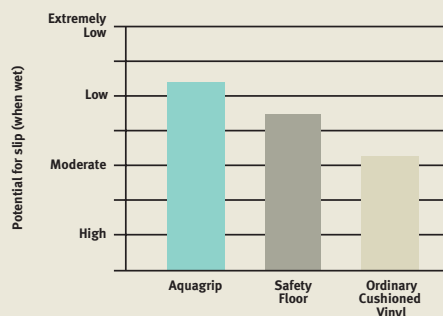

## A safety feature unique to Novilon

Aquagrip is a safety feature unique to Novilon. Unlike conventional cushioned vinyls, the level of grip is not significantly reduced by spills or splashes of liquid. Which means a floor for your home that is beautiful, practical and safer\* to walk on.

There are various tests which measure the 'grip' of a floor. The test used for Aquagrip is BS7976. This follows the guidelines of the UK Slip Resistance Group and translates the co-efficient of friction into a 'Potential for Slip'. The chart shown compares the performance of various floor types, including a commercial 'safety' floor. No floor is 'slip proof', but Aquagrip lessens the risk of slipping, without compromising the look and feel in your home.

\*In order to retain its slip resistance Aquagrip surface should not be treated using any proprietary floor polishes. Please see our warranty sheet (available free on 01592 643777) for more information.

"I was spoilt for choice with the viva range, but I finally opted for a classic black and white scheme. It keeps the hallway bright and inviting."

# discover | viva

The Viva collection has the widest appeal of all the Novilon collections, catering for a variety of budgets and tastes. From realistic tiles to all-overs and woods, you can be sure to find the perfect match for your interior. With the added peace of mind of a 20-year guarantee, Viva is not only beautiful but will give you long lasting looks for your home.

“Choosing the units and worktops was the hard part. I wanted a floor that wouldn’t date and I found exactly that. With a 10 year guarantee who knows, it will probably outlast the rest of the kitchen.”

# discover | salsa

The leather effect all-overs in Salsa suggest natural warmth - perfect for rooms where wood and natural finishes are used. The tiles in the collection have a timeless appeal and - with a 10 year guarantee - will look good for years to come. With Salsa, you can also discover the unique benefits of Solid Core 10 - with excellent indentation resistance, and unbeatable protection against rips and tears, it's all you need for a beautiful long-lasting floor.

"Choosing Nova tiles was an easy decision. I've managed to recreate the warmth of Mediterranean terracotta - the perfect look and feel with none of the hassle."

# discover | nova tiles

The Nova range of tiles brings you the simplicity of natural stone and contemporary ceramics. The look of tiles with none of the drawbacks - deceptively warm, comfortable and easy to use, and perfect for any room in the home.

"My friends can't believe it's not real wood and neither can I. It's fresh and elegant, great for the dining room. If only the other floors were this easy to clean."

# discover | nova woods

Timeless harmonious wood - discover its natural beauty to create the perfect foundation for any interior. Add the benefits of vinyl and you have one of the most desirable and flexible floors in our collection. Choose from rustic, ornate or modern designs. For the bathroom or kitchen? Our seamless and easy to clean products exceed the performance of the real thing and other alternatives.

# discover | what makes novilon different

- 1 Aquagrip wear layer. With our unique Aquagrip technology and class-leading wear layers, our products exceed the residential requirements for European standards. As a result our guarantees lead the industry.
- 2 3rd dimension print layer – the most realistic print technology available.
- 3 Acoustic layer – for a quieter surface this layer reduces sound transmission from the floor.
- 4 Glass fibre stability layer ensures the product lays and stays flat.
- 5 SDF backing – unique flooring technology makes it resilient with superb comfort and indentation properties.

## Installation

For best results, professional installation is recommended. Before installation, subfloors must be permanently dry, smooth, level, clean and of sound construction.

Full installation instructions are detailed in our guide to fitting and maintaining cushioned vinyl. Please telephone 01592 643777 for your copy. Novilon can be installed over underfloor heating where temperatures do not exceed 70°F.

## Maintenance

Forbo recommend Monel for cleaning and maintaining your Novilon floor. Monel has been especially developed by Forbo and is the only product required to care for your Novilon floor. Alternatively, Novilon can be cleaned using a mild solution of neutral detergent in warm water. Abrasive cleaning agents, or those which claim to need no rinsing, should NOT be used. Good practice is always recommended and food spillages, especially those containing staining or colouring agents, should be wiped immediately. Please note in order to retain its slip resistant Aquagrip surface, Novilon should not be treated using any proprietary floor polishes. Forbo Monel is available from your local retailer.

## Guarantees

Depending on the product you have chosen, Novilon has a wear guarantee of between ten and twenty years from date of installation. This is on condition that it is installed as a domestic floor covering, and is laid and maintained in accordance with our recommended procedures. Customers are advised to obtain a copy of our guide to fitting and maintaining cushioned vinyl.

This guarantee does not apply where consequential damage is caused by abuse, accidents, the harmful effects of chemicals, the incorrect use of cleaning agents, or any type of commercial use.

This guarantee does not affect your statutory rights. Customers must retain sales receipt as proof of purchase.
