**Subject:** Stock Ranges

I am considering some offers from suppliers for the New Year and I need to order some extra sampling. I am looking at some regular ranges that we may be able to be sharper on the prices by keeping some colours in stock and making our regular stock offers more attractive.

**Can you let me have by Monday your branches top 4 choices of the following Ranges?**

I am looking at

Sloane Twist – Stock colours @ £18.50 m2 = 23% off ticket price  
 Boston – Stock Colours @ £24.95 m2 = 30% off ticket price

It will also mean roll orders for any colour can also be sold at the stock colour price. I need to organise additional sampling for the stock colours in time for the sale so if I don't receive a response by Monday I will decide the colours but I would like your input.

Thanks  
 DG
