Hi John,

Sorry for the delay in getting back to you - have been running around after electrical bits that the builders needed!

I would like to use Hall's Timber Time Ultimate UL/49 in the family bathroom - the smaller of the two - and Leoline's Camargue in the En-suite. If you can get me a revised quotation then I will place a firm order. It will be the end of next week before the walls etc. will all be in place so probably the beginning of the following week for your final measurements.

Best wishes

June
