

Customer Lucy McNulty S34173

Measure Tuesday 23-05 @ 9-9.30am

Hi John (Copied Richard as well )

I hope you had a good day off you may see the above customer on Saturday, the lady saw you a few weeks ago and showed you her plan from her mobile, I could find no file notes

I have organised samples from the system to be posted but they wish to borrow larger pieces over the weekend

The first flight is a runner, with a top stair that leads off in two directions both with a separate riser

YOUR advice last time was to have this full width which I concur, obviously with Richard measuring Tuesday 23-05 he can advise his thoughts on site

Tape is Calibra 3034 please loan as Kasia unreliable on posting
