Ollie C – awarded most improved player last season and rightly so, good shot stopper and has worked well on his drop kicks, this season needs to work on his dead ball kicks

Blake – can play right back or left, prefers right side, very dependable player and always give his all

Caleb – very talented and athletic defender covers back quickly and watches the back line with authority, certainly a player who could play midfield as another option

Sam – can play midfield central /RHS as well or defence although never keen initially to play the latter role he is very capable and determined player

Lewis – good all rounder can play defence central or LHS or midfield central or LHS strong tackler and has good pace, take free kicks well

George – usually plays LHS in midfield very capable and has played left back as well (not preferred position)

Ben Kitchin – started out as a right back, but has good pace and his preferred role now his right side forward and scored some really good goals

Alfie has played left back when used in midfield he has done really well possesses good skills and pace

Fin has made great strides can play defence or central midfield what he lacks in pace is overcome by his passing and awareness

Louie plays right hand side of midfield or RHS in a front 3 set up has good pace provides good assists and has scored some very good goals himself

Freddie Talented player and very athletic has scored also some good goals links up well with Ben

JJ plays best as a centre forward, plays on the last defender very committed team member, this season should be amongst the goals if linking up with Freddie and Ben

*** Jack T can played central defence or goal keeper

*** Ollie B central defensive midfielder

*** Only saw them in our last game before lock down, both looked very good that day

Michael very impressive debut despite not being his normal position great addition to the team
