Order Confirmation

Subject to Terms And Conditions overleaf - please check all details and advise of any discrepancies immediately.

Additional Preparation Materials

To supply 6mm plywood to fit over the existing Luxury Vinyl Tile flooring prior to the intended screed preparation due to the existing flooring causing the plywood beneath to break up and splinter when uplifting the existing Luxury Vinyl Tiles. If we were to continue removing the existing Luxury Vinyl Tiles and then applying the water based latex screed over the damaged plywood it will result in blisters/lumps in the finished surface where the plywood has delaminated.

The damage occurring during the uplifting of the existing tiles is due to poor preparation or incorrect glue application prior to the tiles being laid.

Additional cost for materials above is £427.00
