Fitting of Materials = Site Template = 05-02 / Fit all carpets = 11-02-2020

Please Note

Runners - If you are having your stairs freshly painted in preparation for the runner, please bare in mind (with the quite forceful method required to install a runner) there is the potential for hairline cracks in the paint, or in the worst case scenario (if your stair case structure is weak) cracks and splits in the stair case themselves. This is not something Mr Carpet LTD can be held responsible for and you will need to arrange any remedial work required to finish the job if need be.

Please Note

Our fitters do not trim doors, therefore please ensure that all doors have sufficient clearance for your chosen carpet & underlay prior to the installation.

IMPORTANT NOTE

The process of fitting stair runners to a staircase requires the gripper fixings to be nailed and the carpet is hammered into the gripper to tension the carpet. This process can cause minor cracks in the painted edges. Whilst every care is taken by our installers we cannot be held responsible if the paint at the edges requires touching up after installation.
