OVERVIEW

Ed de Kreij visited your premises on the 12th December to discuss your requirements for a CCTV surveillance system. The system is to cover the loading bays of unit 19 and unit 32, the car park and the internal office at unit 32. I recommend installing four cameras as detailed below.

-  Infra red illuminated dome camera
-  C/M High resolution external camera

One further internal infra red illuminated dome camera is to be installed in the office at unit 32 viewing the entrance door.

CCTV SYSTEM

CAMERA TYPE “C/M EXT” High Resolution External

A Gantz, high resolution, colour / monochrome camera is to be installed as detailed earlier. This camera produces colour pictures during daylight hours and switch to a monochrome picture.

EXTERNAL/INTERNAL CAMERAS TYPE “COLOUR/MONOCROME INFRA RED DOME CAMERA”

Three day/night dome cameras with infrared illumination are to be installed as detailed earlier. The cameras switch from colour to monochrome pictures during the hours of darkness. The infra red lighting lights up the viewing area brightly, producing a good quality monochrome image fit for purpose.

CONTROLS

1. A Vista, VC04te, 160 GB, 4 channel digital video recorder (DVR) will be located in the IT room and will be rack mounted. The unit has a network interface which allows you to connect it onto your local computer network or LAN, if you have broadband internet connection you will be able to monitor the DVR remotely over the internet. The unit has security features built in to protect it from hackers on the internet, only users with the software, correct username and password can access the unit remotely.
2. One Acer, 17inch, flat screen monitor will be installed in a suitable location.
3. A camera power supply will be fitted in the meter cupboard adjacent to the front of house office.

PRELIMINARY REQUIRMENTS

A 240-volt power supply will be required at the control's location.

COSTS

EQUIPMENT	QTY	COST	TOTAL
Externally fitted infra red illuminated dome camera	2	£ 650	£ 1,300
Internally fitted infra red illuminated dome camera	1	£ 550	£ 550
C/M high resolution external camera	1	£ 750	£ 750
4 way digital recorder and supplies	1	£ 1,808	£ 1,808
TOTAL COSTS			£ 4,408 + vat

TERMS AND CONDITIONS

TIMESCALE

Installation will be to an agreed programme from receipt of order.

BUILDING AND DECORATION

No provisions have been made for building or decorator's work.

WARRANTY

All new equipment installed by DSS carries a 12-month on site warranty.

PAYMENT TERMS

This quotation is valid for 90 days from the date of printing. Title to all goods supplied by DSS passes upon payment of final invoice only. VAT will be added to all prices at the applicable rate. A 40% deposit is required when the specification is accepted. Please send a cheque to 'DS Systems'.

HAZARDS

It is the customer's responsibility to notify us of any hazardous materials that may be encountered during the installation.

ACCEPTANCE FORM

Accept by

(1) Post to DS Systems (2) fax on 0208 543 7952 (3) email to: sales@dssystem.co.uk
