SmartStrand
with renewably sourced polymer*

MOHAWK

SmartStrand® renewably sourced polymer is made, in part, from readily available and renewable crops. A key ingredient is Bio-PDO™, produced from corn sugar. By using this central ingredient 37% of Smartstrand® can be made from renewable resources. Given the rising demand for eco-friendly products, carpets with SmartStrand® are ideal for today's consumers.

SmartStrand® renewably sourced polymer offers permanent stain resistance that's built right into the fibre. Since its stain protection is actually engineered into its DNA, carpets made from SmartStrand® fibre consistently outperform other similar fibres on everything from shoe polish and red wine to coffee and tea. Simple hot water can remove the majority of stains, and carpets with SmartStrand® also resist discolouration from bleach.

SmartStrand Silk
with renewably sourced polymer*

Introducing SmartStrand® Silk™ with all the benefits of SmartStrand® but with even greater softness.

- Built-in lifetime stain and soil resistance, not topically applied
- Protection that never wears or washes off like other carpets
- Proven durability that withstands life's challenges
- Easy to clean with just water, no chemicals required
- Environmentally friendly because it's made in part from renewable resources

everSTRAND.
ECO-FRIENDLY CARPET

EverStrand™ is manufactured by taking plastic bottles and turning them into a soft, durable and easy to maintain carpet fibre. This means that carpets made with EverStrand™ have 100% post-consumer recycled fibre content and with a growing concern for the environment, carpets made with EverStrand™ are perfect for today's consumer.

The Mohawk Group is one of the world's largest recyclers of plastic bottles made from polyethylene terephthalate, or its more common name, polyester. The P.E.T. used in plastic bottles is a top quality resin. When recycled it is extruded into fibres that are far superior to low grade synthetic fibres used in making other brands of carpet yarns. By controlling every aspect of the recycling process we can guarantee the highest standards of performance in our luxurious carpet made with EverStrand™.
