Please Note

**Existing Acoustilay underlay** – The battens laid around the perimeter at the moment are not the correct Acoustilay battens, and this may affect the effectiveness of the sound proofing. They are also level with the underlay and ideally should be around 5mm lower than the Acoustilay 15.

**Door trimming** – It is often necessary to have doors trimmed prior to new carpets being installed. Our fitters do not trim doors; however we are able to recommend a private contractor who can carry out this work for an additional fee payable directly.

**Uplift** – If your carpet is suffering from an existing moth infestation, the uplifted carpet & underlay can not be loaded on to the fitter's van to dispose of as this presents a high risk of cross contamination. The uplifted materials would therefore be left outside the property for disposal by others.

Payment terms

50% Deposit with order & balance payment due 48 hours before 1<sup>st</sup> day of installation (Or 1 month after order placed if the fitting is delayed at customer's request).

Order subject to terms & conditions.
