

Attention Howard Price

21st August 2017

Dear Howard

Flooring project Balham: Lamett Cuba Cotton Wood

Further to our exchange of emails last week I am now able to confirm delivery and prices for the Lamett Cuba cotton White wood for your project. I have spoken to the agent and subsequently received a net price we can supply this material to you for based on 11 pallets of wood being required.

Materials: Lamett Cuba cotton wood

Specification:

Board Size: 190mm x 630-1860mm x 15mm – supplied in 2.12m2 packs
Top Layer: 4mm Oxidative Oil Finish
Texture: Brushed & Smoked
Structure: Multilayer, bevelled V groove on all 4 sides
Grading: ABCD Rustic

Delivery: Currently 3-4 weeks from ordering. (Please note this can change daily)

Quantity required: 11 Pallets = 50 packs @ 2.12m2 = 11,236m2

Price per m2: price per m2 for 11 Pallets = £45.89m2 + VAT & Delivery

Payment terms: To be confirmed but deposit required with order and payment in full required before delivery to site.

I trust the above information is satisfactory and please note that the delivery quoted is based on current stock holdings which changes daily. Regarding delivery it is highly possible I can arrange for the goods to be delivered by the carrier direct to site at no additional costs but this needs to be discussed further if this becomes a serious inquiry that you wish to proceed with but that would certainly be my aim. I may even be able to arrange a split delivery for convenience on site without any increase in costs but this I would need to finalise with Lamett when placing the order with them. I would be grateful if you could tell me either way if you wish to proceed further with this inquiry.

I have attached to this email the manufacturers technical and maintenance sheets for your convenience.

Assuring you of our best attention at all times.

Yours Sincerely

David Guyan (contract sales)
