Seam carpet to 2 recess's in 1st floor front bedroom as necessary (room is over max carpet width),
Move minimal furniture in each room as necessary (**customer to clear all small items & personal belongings**),
All stairs to be fitted full width.

Please Note

Door trimming - It is sometimes necessary to have doors trimmed prior to new carpets being installed. Our fitters do not trim doors; therefore please ensure that your contractor trims the doors to allow for the carpet & underlay thickness prior to the installation.

Furniture Moving - This order includes for moving a minimal amount of furniture in each room, however it is the responsibility of the customer to clear all personal effects, breakables, movable items of furniture, computer and home entertainment equipment from the areas to be carpeted prior to our fitter's arrival.

Existing floors - During our site survey we noted that the existing floorboards are generally in poor condition and some are in need of repair / replacement. Our fitters do not carry out such repairs, therefore we strongly recommend that you have your contractor fix any loose floorboards down securely and replace any damaged or missing boards prior to the carpet installation. If time & budget allows we would also recommend having the existing floorboards over laid with hardboard or plywood as this would improve the overall finish and help hide the undulations between the boards.
