Please Note

Paintwork – In order to install the stair runners on the stairs we have to pin gripperods to the treads & risers and then bolster the carpet into the gap created to ensure a secure fit. Both of these essential procedures will cause vibrations to the stair case which may cause some peripheral cracking / damage to the painted stair edges. Unfortunately, this is unavoidable and we cannot be held responsible for any redecoration works that are required as a result of the stair runner installation.
