2 Flights of Stairs

To supply Ludlow, 100% Wool carpeting, Colour: LUD-116,
Heavy Duty Rubber underlay to be laid beneath
Fitting to same by gripperods installation,

Stairs to be fitted as 60cm wide runners with Cotton Herringbone Tape, Colour: HB8309 sewn on both sides (it will be necessary to complete the installation over two separate visits to the property, the first to template the runners & the second to install them after they have been edged).

Please Note

Paintwork – Please be aware that in order to install the stair runners correctly gripperods will be pinned to the treads & risers and the carpet will be bolstered into them to ensure a secure fit. Both of these essential procedures will cause vibrations and this may cause some unavoidable peripheral cracking / damage to the painted stairs. This is unavoidable & we cannot be held responsible for any redecoration works that are required as a result of the installation.

Scotia Beading – It will be necessary for your builder/decorator to remove the scotia beading that currently sits under the landing nose prior to the installation & make good. Similarly the trim that sits at the base of the very bottom step atop the tiles in your Ground Floor Hallway will need to be removed & the area made good. Both of these actions are necessary to ensure the carpet can finish as neatly as possible at this junctures.
