

Stair Runner To Landing Junction

Wednesday, 15 June 2016

Prepared For Clare Gaskin Interiors

Identified 2 Issues

Nigel Symonds

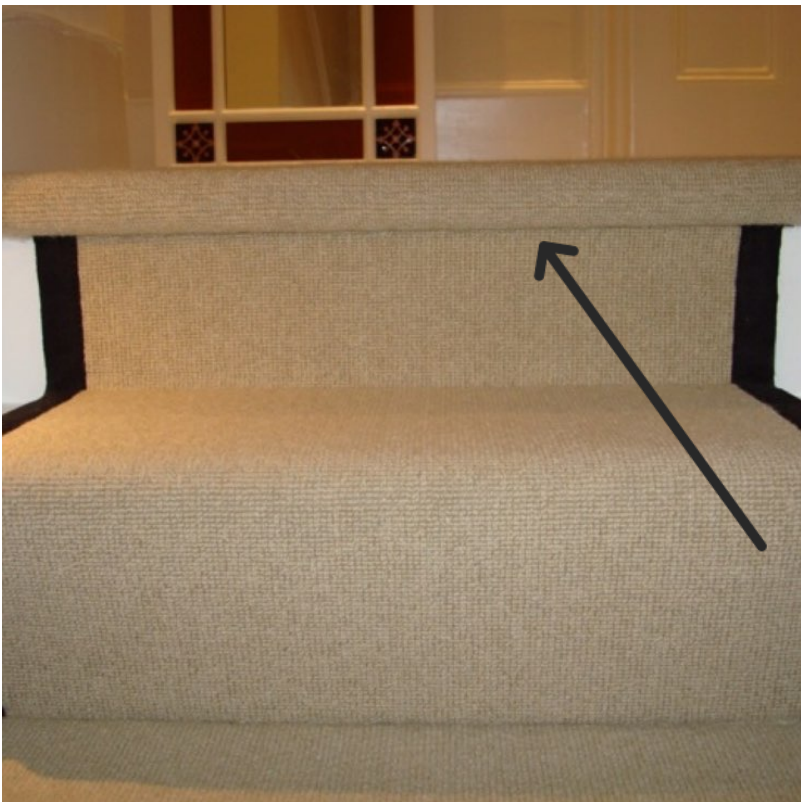

Mr Carpet Ltd

Landing Beading

Please instruct your builder to remove the scotia beading under the landing noses before decorating the edges of the stairs (Please note - This only applies to the landings. The beading should remain on all other steps)

Landing Carpet Finish

With the beading removed we can roll the carpet around the landing nose & fix it underneath. The runner will be fitted to the landing riser (as shown in the photo)
