BESPOKE RUGS

For those with a true passion for interior design, off-the-peg simply isn't good enough. You'll want to create something that has your individuality woven into it.

That's why we offer a bespoke service to create unique hand woven, hand tufted or hand knotted rugs or carpets to your exact specification.

Whether it's an original idea you'd like help to develop or a fully designed interior scheme, where a hand crafted rug will add the finishing touch, we will turn your ideas into luxurious reality.

Origin clients enjoy a personal service that starts with an initial consultation to get a true understanding of your vision and brief.

We'll inspire you with a range of styles, textures, colours and prints, each of which can be tailored to almost any size or shape. We can also match to a sample pattern or colour that you have in mind, the only limit is your imagination.

Once the design is agreed, your rug or carpet will be created using only the finest quality, natural materials and craft skills passed down over generations of master weavers and hand tufting experts.

For decades we have been working with interior designers all over the world to design and manufacture stunning rugs and carpet for a variety of commercial and residential projects. We pride ourselves not only on delivering a truly bespoke product but on offering great customer service throughout the whole process. Our clients are repeat customers who trust us to deliver a design and finished product time and time again. Over the years we have worked on many exclusive projects for clients, including Mulberry, and our work has seen us design floor coverings for luxury yachts, private jets and boutique hotels.

If you'd like to know more about our bespoke service or to arrange a consultation, please call... **01484 863 227**

'A bespoke rug is like a couture dress for your room.'

RUG SIZING GUIDE...

Here is a quick size guide to help you understand how big our rugs are in relation to different furniture in a room. Obviously your particular furniture may vary from the diagrams shown here but hopefully this will give a basic guide to size and proportion.

If you require any help or information about sizes please contact us on **01484 863 227**.

RUG CARE & MAINTENANCE...

Looking after your rug: It is completely normal for your new rugs to shed fluff at first, this is caused by excess fibres that attach during the spinning process. Once the rug has been vacuumed a few times this will lessen and eventually stop. Regular vacuuming will help to keep your rug looking new for longer and prevent dirt that is on the surface of the rug getting embedded and making it much harder to clean. We would recommend the use of a suction vacuum cleaner to ensure that the pile of the rug isn't damaged. It is always useful to rotate your rug on a regular basis to even out the wear of the rug or fade if it is in natural sunlight.

Spills & Stains: To prevent permanent stains on your rug any spills must be dealt with as soon as they happen. The best way to treat them is as follows:

1. Blot up excess with a clean white cloth or paper towel. NB. Never rub as this can spread the spill
2. Working from the outer edge of the stain to the centre, apply appropriate carpet cleaner with a clean cloth
3. Pat with a paper towel and leave to dry
4. Vacuum the rug
5. If stain is still visible repeat the process until the stain is completely removed

If trying to remove the stain yourself doesn't work contact a professional carpet/rug cleaning company.

Handmade rugs

ABRASH: Because our rugs are made by hand they may have inconsistencies known as 'Abrash' which means natural and variable change in colour and yarn that occurs in hand made rugs. It gives the rugs life and character and ensures you have a unique rug.

LOOSE THREADS: Again because our rugs are hand made you may occasionally find a loose or longer thread, simply trim it down with sharp scissors or gently pull it out if it is very loose. Each knot is separate in hand made rugs so the rug will not unravel and there are so many surrounding tufts that they will just fill the space.

FADING: We always use the best dyes in our rugs with the most resistance to fading, but there are no textile dyes that are impervious to sunlight so if you leave your rug in a sun lit area fading will occur over time. Turning your rug regularly will ensure that any fading is even.

Underlay/Rug Grip

We advise the use of an underlay/rug grip for the following reasons...

- **SAFETY** – No matter where the rug is placed (carpet, hardwood etc), a pad keeps the rug in place to prevent slips and pulls
- **LONGEVITY** – Believe it or not, a pad extends the life of your rug by preventing the fibres from being crushed. The pad acts as a buffer between the hard surface below and the rug above.
- **PROTECTION** – Very important! A pad prevents dye transfer, marring, staining, and scratching to the floor or carpeting beneath.
- **COMFORT** – A pad adds extra cushiony softness underfoot.
- **CLEANLINESS** – A pad allows for easier vacuuming as it holds the rug in position.

We sell anti slip rug grip which is suitable for use on any floor i.e. carpets, tiles or wood. Please contact us for further information on **01484 863227**

RUG GRIP

RECYCLABLE UNDERLAY PAD THAT HUGS YOUR RUG TO THE FLOOR

We have tried to replicate the colours as closely as possible in this brochure but as each rug is handmade there may be slight variations in colour, design and size. We are always looking for ways to improve our products and we reserve the right to change specifications, colours and materials shown in our brochures and on our website or to withdraw products without prior notice.

As well as our extensive rug collections the Phoenix portfolio has several other brands that we would like to introduce to you. Our products meet the needs of your customers at a variety of price points all backed by UK manufacture and the Phoenix promise of quality.
