#### Moth Treatments

With moth infestations on the increase, Safeclean by Guardsman have developed an effective solution to eradicate any unwanted infestations of carpets and upholstery.

Using an industry leading treatment, you can be sure to rid your home of any moths and their larvae. With each female moth laying around 200 hundred eggs in their lifetime, it is important to act fast to rid the moths from your home and prevent further damage.

#### Stain Removal & Protection

With our stain removal service, we can remove even the most stubborn of stains with our industry leading products.

To make your furniture or carpet more resistance to staining we also offer a stain protection treatment.

This treatment creates an invisible shield that prevents dirt and liquids from penetrating and damaging the fibres of the fabric or carpet. It makes it easier to wipe away spills and doesn't alter the look or feel of the fabric in any way.
