

Product Specification

Symphony	
Type	Super Soft Luxury Velour
Yarn Content	TekSilk 100% PA Nylon 6.6
Gauge	5/64"
Tuft Density (Tufts / m ²)	281,000
Pile Weight (Gr./m ²)	1666
Total Weight (Gr./m ²)	2500
Pile Height	7.8mm
Total Height	10mm
Width	4 Metre
Backing	Ceneva® Actionbac®
Number of colours	15
Rating	Heavy Domestic / Medium Contract
Tog Rating	1.5
Colours	
Amsterdam	Dresden
Berlin	Boston
Vienna	New York
London	Mariinsky
Chicago	Leningrad
Budapest	Paris
Seoul	Bordeaux
Montreal	

Installation

If you require colour matching then please let us know when placing your order. For all contract installations we recommend an all over stick down method.

Maintenance

Correct and regular maintenance will increase your carpet life for longer. We do not recommend light shades in heavy traffic areas. Regular vacuuming once a week will maintain the look of your carpet however we recommend twice a week for heavy traffic areas. 'Shading' is the effect of unequal pressure on pile carpets and is a natural characteristic, not a manufacturing fault. We recommend an upright vacuum cleaner with a beater bar on all of our products.

Important

Due to the limitations of dye technology, colours may vary from those shown on your samples. It is strongly recommended that a protection mat or keyhole mat is used under castor chairs. No claims will be considered as a result of improper application, installation or maintenance. Carpet cleaning should always be done by a professional, do not attempt to clean your carpet without consulting a professional as you may damage your carpet.
