MAINTENANCE

For day to day cleaning, use of a vacuum cleaner is recommended. Professional Cleaning by Dry Cleaning Extraction or Hot Water Extraction is recommended to prolong the life of the carpet.

All cut pile textures can show colour variation where the lay direction of the pile varies in adjacent areas. This is not a manufacturing fault. Wool products being natural in origin may show occasional variations, such as black hairs. While every effort is made to grade the wool prior to tufting, we cannot guarantee that there will be no black hairs in the plain carpets.
