Ranges on Display

Bellagio

Eden

Harlequin

Joseph

Karma

Laya

Sisal

Whisper

The retail prices on the tickets for these ranges allow for a 25% discount. As I explained I do not want to publicise this on the window but I will produce a postcard that we can send to every customer that we sell carpets or flooring to as a loyalty reward.

Entry on to database

The manufacturers have different ways of pricing the rugs. Asiatic ranges are on the database. Search in F3 for the range name (ie Eden Rugs) select the range, add the colour if not yet entered and then input the length of the rug and you will then be asked for the width of the rug.

Mastercraft are not yet on the database and I will be adding them. If you sell a rug before I have entered them then contact me and I will enter the products as sold.

You can have them delivered to the branch but you will have to ask the warehouse to book them in when they are delivered and then booked out when they are collected. If they are being delivered by the fitters to the customer then have the rugs delivered to the warehouse and pick them for delivery in the normal way.

Delivery should be about 48hrs if the goods are in stock when they are ordered.
