

I am adding to stock the POLISHED & SATIN range of Aluminium bars made by CAT as the Chrome & Nisheen are now so expensive and we have had another price increase in January where the COST went up by nearly £1 per bar + VAT.

It is not my intention to increase the price of the Nisheen & Chrome at the moment but if they go up again then they may need to. I am however introducing the following items into stock to help in these difficult trading times.

Polished Aluminium & Satin Aluminium in the following profiles.

D/Nap
Tile Edge (10mm)
S/Nap

They will be stocked in 2.7m lengths and sold in 900mm multiples.

D/Nap & Tile edges will be £20 each & S/Naps will be £15.00 each PER 900mm DOOR WIDTH.

As I have got to make space in the warehouse, order the stock and get samples to the branches it will take me a little while to organise.

THEY WILL NOT BE AVAILABLE FOR SALE UNTIL 1st April 2011.

I will let you know as soon as they arrive in stock.
