

## Stock News

### **New Twist – Our Name – Metro Twist                      £14m2 Net**

By a democratic decision and a majority vote the new stock twist (City Twist 40) will be available in **4m width only** and the following 3 colours

Bassalt  
Linen  
Quary

**The first stock will be available W/C 7<sup>th</sup> June 2010 and the net retail price is £14m2.**

### **Low Tog Underlay- Homemaker Low Tog underlay                      £7.95 m2 Net**

With the increasing demand for under floor heating I have decided to take a low tog underlay into stock so **we can sell it by the m2 and not by the roll.**

I have given it a generic name on the database and I would like you to do the same on the estimates etc so if we have to change supplier we will not get caught out.

The initial underlay I will be stocking is Roma underlay by Ball & Young and **it is .8 tog value.**

**We will only be stocking at this time a maximum of 10 rolls (@ 10m2 per roll) and we may only have 4/5 rolls at any one time ie 40-50m2.**

**If you have a large job coming up advise Ashley by email at least a week in advance to ensure there is sufficient stock available.**

I will be monitoring the sales of this product and if we need to increase the stock I will but I am juggling space as always.

**The first stock will be available as of 14<sup>th</sup> May 2010.**
