PROFILE

I am currently self-employed as a carpet fitter, with my own carpet fitting tools and LWB 350 Ford Transit, which I also use for removal and house clearance work. I also undertake regular work for Posters in Transit, which is involved in advertising and promotional work, largely with van drivers in the building and associated trades.

I have been a carpet fitter for over ten years, following a course at the UK Flooring Academy Ltd in 2005, and have continued to fit carpets during and between periods of contract work employment via agencies, working for Carpet Right, Carpets for Less, and Floors for Less. Part of my task as a carpet fitter, as well as measuring and advising, has been to assist customers in the selection of carpets and underlay, and to liaise with in-store staff in this respect.

I am confident, friendly and approachable, take pride in my work, and am looking for full-time permanent employment which will utilize both my sales and my practical skills.

KEY SKILLS

- Ability to prioritise my workload to ensure that all work is completed within given timescales
- Flexible and adaptable approach to work
- Ability to work on own initiative or as part of a team
- Good interpersonal and communication skills
- Reliable and good timekeeper

ADDITIONAL INFORMATION

I have worked via employment agencies and personal contacts for a number of years, so that my work history dates occasionally overlap. I am now seeking a position with a company which will offer me full-time permanent employment, and which will be able to use and develop my key skills. I am willing to undertake additional training if necessary.

I have a full driving licence and my own vehicle.
