Signature Laying Patterns

Create unique and individual flooring with the Amtico Signature Laying Patterns. Working with any of the standard Amtico Signature product sizes, you can create many laying patterns from a simple Stripwood flooring to a more complicated Herringbone. The finished floor can have a different look even by using the same sized plank simply laid in a different pattern. It is the laying pattern that sets Amtico apart, bringing variety and individuality to your home. These are just some of the ways you can create a beautiful floor with tiles and planks of different sizes.

Form Laying Patterns

Your choice of laying pattern will really help to make your Amtico Form flooring stand out. The textured and authentic nature of Amtico Form lends itself beautifully to certain laying patterns. From a classic choice such as Stripwood to the stunning simplicity of Parquet, it is laying patterns like these that will bring the characterful and distinctive nature of this embossed and heavily grained flooring to life. An eye-catching and popular choice such as Herringbone will draw the eye and works well in both contemporary or traditional surroundings.

WHAT IS STRIPPING?

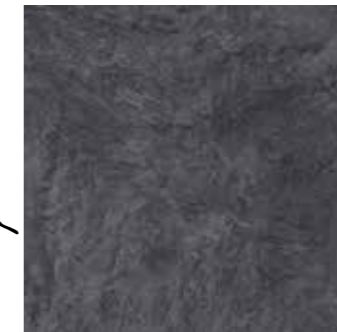

Stripping can be used with Signature, Form and Spacia products. If you decide to set off your flooring with stripping, this sits between the Wood, Stone or Abstract design of your choice.

THE ALL IMPORTANT FINISHING TOUCH

Stripping can enhance and define your flooring. Go for something subtle and discreet or be daring and try a contrasting stripping option for a look that is unexpected and unique to you.

Mirabelle Creme
(chosen as the stripping)

Monmouth Slate
(chosen as the floor)

The finished result!
