Dear Customer,

I am writing to you again as I wanted to update you on our logistics network as well as informing you of an August price increase due to ongoing high raw material costs and shortages.

Firstly, I would like to apologise for all the issues we as a business have had with deliveries over the past months and for all the inconvenience caused to your customers and your business during this period. As much as the issues have not been of Associated Weaver's doing, they are still our problem to resolve, and you as our customer, need to receive a reliable and regular delivery service too.

I am pleased to say we have turned a corner as our second major UK delivery hub has now opened in Doncaster. This depot will service the north of the country for us with the Harlow depot, which opened at the beginning of the year servicing the south of the country.

The service is a brand-new network with our long-term partner Verhoek. We are not fully where we would like to be, but we are all working very hard on the service, and we will soon be back to the fast and reliable service you have been used to and expect from Associated Weavers for so many years. Your local area sales manager will be updating you on our new network on his next visit.

The raw material prices have not recovered from their unprecedented high levels as originally forecast earlier this year which means we will have to increase prices on 1st August 2021. There continues to be a global shortage on both PP and PA, keeping prices high as demand for these raw materials is higher than ever in all industries and not just flooring. A copy of the new price list effective 1st August 2021 is enclosed for your information and your area sales manager will be in touch with you to discuss any net cut or roll prices.

I would like to thank you again both personally and on behalf of everyone one at Associated Weavers for your continued support and understanding during this very difficult period. I am pleased to say that better times are ahead for us all.

Yours faithfully,

Gavin Pugh
