PILE REVERSAL - TRACKING

Cut pile carpets from time to time may show signs of pile reversal. This is a natural phenomenon and is not regarded as a manufacturing fault. Tracking on soft touch carpets is regarded as a natural feature and not a manufacturing fault.

COLOUR MATCHING ON WOOL CARPETS

There may be slight variances within manufacturing tolerances from batch to batch. This is a natural feature of any wool carpet range. Where precise colour matching from the same batch is required, it is essential this is stated at the time of order. Samples left in direct sunlight for a long period of time will show signs of fading. This is not a manufacturing fault.

Foundation of Luxury

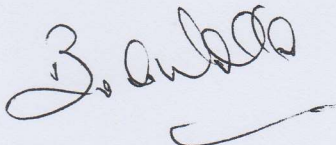

Dear Customer,

May we thank you for whatever support you have been able to provide Causeway over the past challenging year and we wish you well for an eagerly awaited reopening of floorcovering stores.

Along with all other manufacturers and distributors we have had to accept a raft of cost increases, notably in raw materials where in addition to the recent rise in the cost of wool, man made fibres have risen dramatically. Backing fabrics, latex and transportation costs have all increased along with a Government imposed annual wage award to all our employees.

We have absorbed as much of the increases as possible but please find the enclosed Trade Price List effective on all orders placed from 1st May, 2021 onwards. Please also note that Casablanca, Pure and Soft Feelings are only available in 4m width; all wool ranges remain available in both 4m and 5m widths. All of our ranges are carried in stock as usual in our Kidderminster warehouse.

Our thanks and kind regards,

Bob Wolff.
