Dear customer

Thank you for requesting a Colour Flooring Company sample book.

We wanted to let you know that we have just upgraded our vinyl range to a higher specification, eco-friendly material, in a palette of gorgeous new colours including our whitest ever white, a deep orange, a modern mauve and four new shades of grey.

Our vinyl flooring now comes in a 3.2mm thickness with a huge 0.7mm wear layer. It is suitable for use in any setting – from shops, offices, schools and hospitals to busy family homes - and has exceptional acoustic performance, with 19dB noise reduction.

We have also just introduced a rubber range which comes in a 3mm thickness and is 1.9m x 10m.
