Selvage edge: Any rug 4m or 5m wide, customer needs to be made aware that the selvage edge may be irregular and may need to be cut down; therefore rug width may be 3.95m/4.95m.

Rug lengths and dimension need to be ordered to the nearest 5cm.

All our flooring is directional. We will assume unless otherwise stated, that the longest dimension is the length and the shortest dimension is the width.

Lead time is 3-4 weeks.

How to calculate the cost of your rug:

Cost of flooring: multiply the width by the length i.e. how many square metres. Multiply this figure by the cut length price of the flooring.

N.B. if the rug is less than 2m wide please add 25% on to the cost of the flooring.

Cost of binding: calculate how many linear metres you have by adding up all the sides of the rug together. Multiply this figure by the cost of the binding.

Finally add the cost of the flooring to the binding. This is your rug price ex VAT.

All rug orders must be put in writing and sent to: rugs@fibreflooring.com or warehouse@fibreflooring.com
