## How to calculate the cost of your bespoke rug

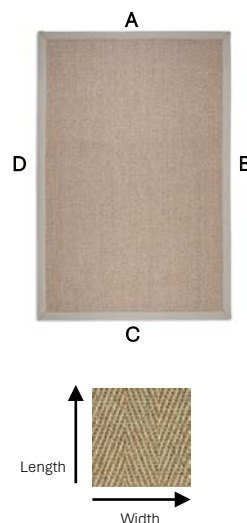

You can visit the 'Rug Calculator' on our website [www.fibreflooring.com](http://www.fibreflooring.com). Click on the individual product and the rug calculator is on a tab to the right of the image. This will give you the RRP, which is double your trade price +VAT. A quick way to work out the trade price of a rug: **Net Trade Price = RRP ÷ 2.4**

**Step 1:** Cost of flooring: multiply the length by the width i.e. how many square metres. Multiply this figure by the cut length price of the flooring.

**Step 2:** Cost of binding: calculate how many linear metres you need by adding up all four sides of the rug together to get the perimeter i.e. **A+B+C+D = perimeter**. Multiply this figure by the cost of the binding.

**Step 3:** Add the cost of the flooring to the cost of the binding. **N.B. if the rug is less than 2m wide please add a 25% surcharge to this figure.**

**Step 4:** Remember to include any extras; Intec or rug underlay & add VAT.

## Important information to note

All our flooring is directional and is shown on the website with the vertical axis showing the length and the horizontal axis the width. All orders must be in the form of **LENGTH x WIDTH** in metric. (↑L x →W).

Our lead time is 4-6 weeks.

**All rug orders to be placed in writing and sent to [rugs@fibreflooring.com](mailto:rugs@fibreflooring.com). We will only process orders which are in metric and that have written acceptance of our quote.**

## Surcharges and restrictions

For **rugs less than 2m wide please add a 25% surcharge.**

For **rugs less than 1m, over 5m in length** or an **unusual shape** (e.g. internal mitred corners) please contact Head Office for a quote.

**Please note: All stair runner work to be quoted separately – please contact [rugs@fibreflooring.com](mailto:rugs@fibreflooring.com) for a quote.**
