Installation Guide for Artificial Grass

How much do I need?

Measure the area you intend to cover, then using the available widths calculate the length you need. If joins are required the pile direction on the grass should go in the same direction. Please bear in mind as with carpet there will be a shade difference from batch to batch.

How do I prepare the surface?

For existing lawns and soil remove to a depth of 10cm. If required install a weed membrane. Add a 5mm to 20mm layer of coarse crushed aggregate. Insert any stakes or batons for edges at this stage, normal size baton would be 100mmx 25mm. Compact the aggregate with either a roller or compactor (available from most tool hire centres). Add a layer of grit sand then either roll or compact again.

For wooden decking, stone, tarmac and concrete where possible ensure the surface is level, however if you are preparing a new surface please allow an incline for drainage.

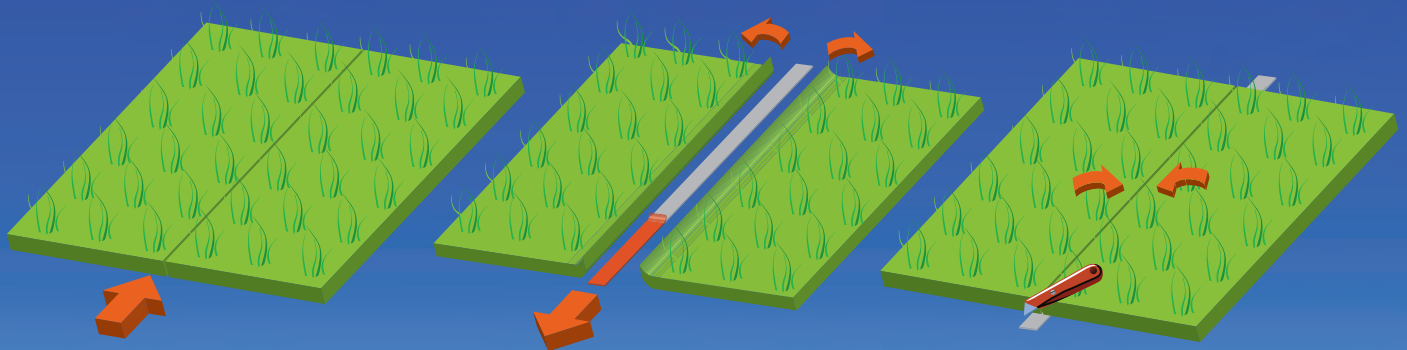

How do I fit the artificial grass?

Now that your surface preparation is complete you should first check the artificial grass. If it comes with a black selvage remove this with a straight edge and Stanley knife. Roll the grass over your surface; be sure to pull it tight to ensure a smooth fit. For large contract work joins should be made using our SP Tape and either Greenbond or F74 adhesive where the installation is subjected to surface water. F3 is suitable where there is no surface water issue. Ensure the pile direction is the same then trim down the edges to be joined with a Stanley knife. With the grass join in place, view the join and ensure before any adhesive is applied that you cannot see any gaps. Fold the edges of the grass back and lay the joining tape along the full length of the joint. Apply the adhesive to the tape and then spread the adhesive ensuring there is sufficient to bond the full surface, not just the ridges. Fold the grass back onto the adhesive ensuring that any adhesive that gets onto the grass is immediately removed, weight the joint down until fully cured. For wooden decking, stone, tarmac and concrete ensure the surface is clean and smooth. Apply either spots or a bead of the adhesive to the surface adhesives. Weight the edges until the adhesive is fully cured.

What about supply only?

If you are supplying the grass and are not involved in the installation it is vitally important to give your customer the right advice. If they are to join the product we recommend you supply them our Lawn-Fix tape for any joint work. This is a pressure sensitive tape designed for small leisure areas. With the adhesive and tape already combined this is the easiest and quickest of the seaming options. The roll is 20m in length by 150mm wide. Please see diagram below for tape use. F74 and F3 should only be used by professional floor layers due to the nature of the adhesive.

DIY and General Use

1. Roll out the artificial grass in parallel strips so the edges are touching

2. Bend the edges back and install the tape between the rolls where the seam will be folded: adhesive side up.
Remove the protective foil.

3. Fold the edges back onto the tape ensuring that the grass fibres do not touch the surface of the adhesive.
Press the seam firmly and remove the excess tape.

InstaLay[®]

InstaLay is a self-contained rubber crumb underlay system that simplifies installation by reducing sub-floor preparation and eliminating the need for adhesive.

InstaLay 25hg – High grab adhesive

2.5mm underlay with permanent self-adhesive bond. Ideal for LVTs (dry back) and woven vinyl tiles.

InstaLay 30lg – Low grab adhesive

3mm underlay with non-permanent self-adhesive bond. Ideal for carpet tiles, LVT's (click), engineered wood (click) and laminate (click) installations.

InstaLay 30hg – High grab adhesive

3mm underlay with permanent self-adhesive bond. Ideal for LVT (dry back), solid/engineered wood (tongue and groove), and broadloom carpet installations.

InstaLay 50lg – Low grab adhesive

5mm underlay with non-permanent self-adhesive bond. Ideal for carpet tiles, engineered wood (click) and laminate (click) installations.

InstaLay 50hg – High grab adhesive

5mm underlay with permanent self-adhesive bond. Ideal for solid/engineered wood (tongue and groove) and broadloom carpet installations.

FLOORING EXPERIENCE

Terms and Conditions

The following are extracted from the Standard Terms and Conditions of Sale of HFD Limited (the "Seller").
A full copy of these Conditions is available on request.

1. Terms of Payment

1.1 The Seller shall invoice the Buyer for the Goods immediately following delivery. Payment is due on or before the 20th day of the month following the month of invoice. Time for payment shall be of the essence of the Contract.

1.2 If the Buyer fails to pay on the due date, the Seller shall be entitled to:

- 1.2.1 the immediate payment of all outstanding payments on the Goods or any other goods, services or works under any contract even if payment is not due and irrespective of any credit facilities;
- 1.2.2 charge the Buyer interest at the rate of 2.5% per month on unpaid amounts until payment is made (a part of a month being treated as a full month) for the purposes of calculating interest); and
- 1.2.3 charge the Buyer the cost of recovery of any unpaid amount including any legal costs, disbursements and bank charges incurred.

2. Risk and Property

2.1 Risk of damage to or loss of the Goods shall pass to the Buyer on delivery. The property in the Goods shall not pass to the Buyer until the Seller has received in cash or cleared funds payment in full for the Goods and all other goods for which payment is due.

2.2 Until the property in the Goods passes to the Buyer the Seller shall be entitled to require the Buyer to deliver up the Goods to the Seller and if the Buyer fails to do so, to enter upon any premises of the Buyer or any third party where the Goods are stored and repossess the Goods.

2.3 Until property in the Goods passes to the Buyer, the Buyer shall keep the Goods separate from those of the Buyer and any third party and properly stored, protected, insured and identified as the Seller's property. If the Buyer sells the Goods before the Property has passed to the Buyer, the Buyer will account to the Seller for the proceeds of any such sale.

2.4 The Buyer shall not be entitled to pledge or in any way charge any of the Goods which remain the property of the Seller but if it does so all moneys owing by the Buyer to the Seller shall forthwith become due and payable.

2.5 Where the Seller is unable to determine whether any goods are the Goods, the Buyer shall be deemed to have sold, re-sold or otherwise dealt with all goods of the kind sold by the Seller in the order in which they were invoiced to the Buyer.

3. Insolvency of Buyer

3.1 This clause applies if:

- (i) the Buyer makes any voluntary arrangement with its creditors or (being an individual or firm) becomes bankrupt or (being a company) becomes subject to an administration order or goes into liquidation (otherwise than for the purposes of amalgamation or reconstruction); or
- (ii) an encumbrancer takes possession, or a receiver is appointed, of any of the property or assets of the Buyer; or
- (iii) the Buyer ceases, or threatens to cease, to carry on business; or
- (iv) the Seller reasonably apprehends that any of the events mentioned above is about to occur in relation to the Buyer and notifies the Buyer accordingly.

3.2 If this clause applies then, without prejudice to any other right or remedy available to the Seller, the Seller shall be entitled to cancel the Contract or suspend any further deliveries under the Contract without any liability to the Buyer, and if the Goods have been delivered but not paid for the price shall become immediately due and payable notwithstanding any previous agreement or arrangement to the contrary.
