Sustainable from the start

With a concrete commitment to significantly reduce our environmental impact by 2040, we ensure sustainable processes every step of the way. So...

- ✓ One third of the energy powering our factory comes from wind turbines
- ✓ We use water from the River Scheldt to naturally cool the machines in our facility
- ✓ Our floors are fully recyclable and made from up to 50% recycled materials
- ✓ We continually look for more eco-friendly packaging solutions and reduce the amount we use
- ✓ We reuse materials, ensuring PVC waste from the production process comes back to the circuit
- ✓ We use water-based inks and finishes, not harmful solvent-based substances
