# Royale Stair Rods

- Available for runner and fully fitted carpets.
- Three finial designs: Beaumont, Louis, Vue.
- Ten finishes: Antique Brass, Antique Bronze, Black, Brass, Brushed Chrome, Chrome, Pewter, Polished Nickel, Satin Brass, Satin Nickel.
- All finial designs are available in all colours in any combination.

## Royale Prices

Hollow Triangular Rod	Runner	Fully Fitted
For any length up to 36" (91.5cm), thereafter add 55p/inch (2.5cm)	£25.46	£22.72

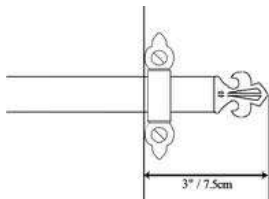

## **Product**

- The Royale range of stair rods are available for either a runner carpet or fully fitted.
- The Royale range are made to measure, see below for measuring guidelines.

## **Royale Stair Rod For Carpet Runner.**

- We recommend that you add 6 inches (15cm) to the width of your carpet and use this measurement to give you the tip to tip length of the stair rod.

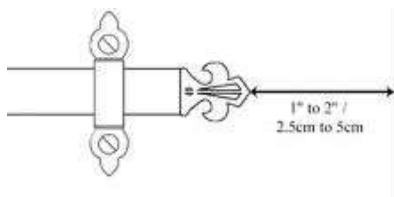

- Our standard runner bracket clearance is 10mm.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

## **Royale Rod For Fully Fitted Carpet.**

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

## **Fitting Rods To Stair.**

- Both runner and fully fitted brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. A clearance hole of 4mm should be drilled to accommodate the screw shank. Remember to set your power drill on a low torque setting to avoid breaking the screws. For fully fitted carpets the supplied bracket sits on top of the rod and screws fix it through the carpet.

## **Care and Maintenance**

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

- Available in three rod styles: Plain, Reeded and Spiral, for runner and fully fitted carpets.
- Three finial designs: Dubai, Cairo, and Dune.
- Ten finishes: Antique Brass, Antique Bronze, Black, Brass, Brushed Chrome, Chrome, Pewter, Polished Nickel, Satin Brass and Satin Nickel.
- All finial designs are available in all colours and rod styles in any combination.
- Spiral rod only available up to 43" on this range.

## Eastern Promise Prices

## **Product**

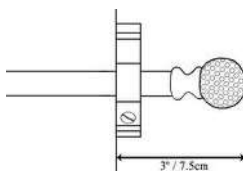

- The Eastern Promise range of stair rods are available for either a runner carpet or fully fitted.
- The Eastern Promise range are made to measure, see below for measuring guidelines.

### **Eastern Promise Rod For Fully Fitted Carpet.**

- We recommend that you leave a 2 inch (5cm) gap between the stringboard and the tip of the rod at both sides of the staircase. The Eastern Promise range are made to measure, see below for measuring guidelines.

### **Eastern Promise Stair Rod For Carpet Runner.**

- We recommend that you add 6 inches (15cm) when choosing the Cairo or Dubai finial, to the width of your carpet and use this measurement to give you the tip to tip length of the stair rod. If choosing the Dune finial add 5 inches.  
**NOTE: Tip to tip measurement includes the finials.**

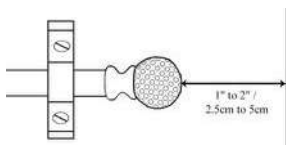

- Our standard runner bracket for this range has a clearance of 16mm however if you have either a deep pile carpet or thin carpet please call for advice.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

### **Eastern Promise Rod For Fully Fitted Carpet.**

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

## **Prepare Hinge Brackets For fitting**

- The brackets for runner carpets are hinged and consist of a bottom and top section and cannot be mixed with the top or bottom of other brackets. To fit the brackets the top and bottom must be separated to allow access to the screw holes. This requires little effort and is accomplished by removing the dome head screw and placing your thumbs on the hinge part of the bracket and first two fingers on the inside of the top and bottom and gently ease open the bracket. This will loosen the hinge and allow you to slide them apart.

## **Fitting Rods To Stair.**

- Both runner and fully fitted brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. A clearance hole of 4mm should be drilled to accommodate the screw shank. Remember to set your power drill on a low torque setting to avoid breaking the screws. With the hinged bracket separated fit the bottom half to the stair and put the rod in place then re fit the top half of the bracket by sliding the two half together, finally close with the dome head screw. For fully fitted carpets the supplied bracket sits on top of the rod and screws fix it through the carpet.

## **Care and Maintenance**

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

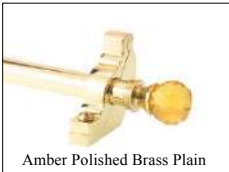

# Crystal Stair Rods

- Available in three rod styles: Plain, Reeded and Spiral, for runner and fully fitted carpets.
- Four crystal colours: Amber, Rainbow, Rose, Sky.
- Ten finishes: Antique Brass, Antique Bronze, Black, Brass, Brushed Chrome, Chrome, Pewter, Polished Nickel, Satin Brass and Satin Nickel.
- All finial designs are available in all colours and diameters in any combination.
- Spiral rod only available up to 42" on this range.

## Crystal Prices

Hollow 1/2" Rod	Runner	Fully Fitted
<b>PLAIN ROD</b> 1/2" (12mm). For any length up to 36" (91.5cm), thereafter add 25p/inch (2.5cm)	£13.94	£13.29
<b>SPIRAL OR REEDED</b> 1/2" (12mm). For any length up to 36" (91.5cm), thereafter add 25p/inch (2.5cm)	£16.06	£15.41

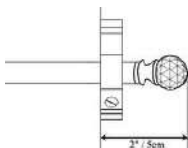

## Product

- The Crystal range of stair rods are available for either a runner carpet or fully fitted.
- The Crystal range are made to measure, see below for measuring guidelines.

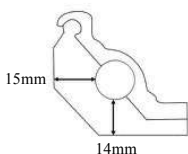

## Crystal Stair Rod For Carpet Runner.

- We recommend that you add 4 inches (10cm) to the width of your carpet and use this measurement to give you the tip to tip length of the stair rod. **NOTE: Tip to tip measurement includes the finials.**

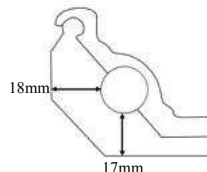

- Our standard runner bracket clearance is 14mm however if you have a deep pile carpet there is the option of using the 'High Clearance' bracket to give you 17mm clearance at a surcharge of £1.66 per rod.

Standard

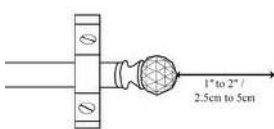

High Clearance

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

## Crystal Rod For Fully Fitted Carpet.

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

## Prepare Hinge Brackets For fitting

- The brackets for runner carpets are hinged and consist of a bottom and top section and cannot be mixed with the top or bottom of other brackets. To fit the brackets the top and bottom must be separated to allow access to the screw holes. This requires little effort and is accomplished by removing the dome head screw and placing your thumbs on the hinge part of the bracket and first two fingers on the inside of the top and bottom and gently ease open the bracket. This will loosen the hinge and allow you to slide them apart.

## Fitting Rods To Stair.

- Both runner and fully fitted brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. A clearance hole of 4mm should be drilled to accommodate the screw shank. Remember to set your power drill on a low torque setting to avoid breaking the screws. With the hinged bracket separated fit the bottom half to the stair and put the rod in place then re fit the top half of the bracket by sliding the two half together, finally close with the dome head screw. For fully fitted carpets the supplied bracket sits on top of the rod and screws fix it through the carpet.

## Care and Maintenance

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

# Premier Stair Rods

## **Product**

- The Premier range of stair rods are available for either a runner carpet or fully fitted and in three diameters for runners and two diameters for fully fitted, see facing page for details.
- The Premier range are made to measure, see below for measuring guidelines.

### **Premier Stair Rod For Carpet Runner.**

- For 1/2" rods we recommend that you add 4 inches (10cm) to the width of your carpet and use this measurement to give you the tip to tip length of the stair rod, for 5/8" 5 inches (12.5cm) over and for 3/4" 6 inches (15cm) over.

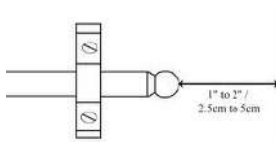

- Our standard runner bracket clearance is 14mm however if you have a deep pile carpet there is the option of using the 'High Clearance' bracket to give you 17mm clearance at a surcharge £1.66 per rod.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

### **Premier Rod For Fully Fitted Carpet.**

- We recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

### **Prepare Hinge Brackets For fitting**

- The brackets for runner carpets are hinged and consist of a bottom and top section and cannot be mixed with the top or bottom of other brackets. To fit the brackets the top and bottom must be separated to allow access to the screw holes. This requires little effort and is accomplished by removing the dome head screw and placing your thumbs on the hinge part of the bracket and first two fingers on the inside of the top and bottom and gently ease open the bracket. This will loosen the hinge and allow you to slide them apart.

### **Fitting Rods To Stair.**

- Both runner and fully fitted brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. A clearance hole of 4mm should be drilled to accommodate the screw shank. Remember to set your power drill on a low torque setting to avoid breaking the screws. With the hinged bracket separated fit the bottom half to the stair and put the rod in place then re fit the top half of the bracket by sliding the two half together, finally close with the dome head screw. For fully fitted carpets the supplied bracket sites on top of the rod and screws fix it through the carpet.

### **Care and Maintenance**

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

- Available in three rod styles: Plain, Reeded and Spiral, for runner and fully fitted carpets.
- Available in two diameters: 1/2" and 5/8".
- Four finial designs: Arran, Balladeer, Bordeaux and Sherwood.
- Ten finishes: Antique Brass, Antique Bronze, Black, Brass, Brushed Chrome, Chrome, Pewter, Polished Nickel, Satin Brass and Satin Nickel.
- All finial designs are available in all colours and diameters and rod styles in any combination.
- Spiral rod only available up to 42" on this range.

- All end detail finishes are available in both dark and light in any combination.

## Tudor Prices

Available in Dark and Light	Runner	Fully Fitted
For any length up to 36" (91.5cm), thereafter add 23p/inch (2.5cm)	£13.56	£12.39

### Fully Fitted

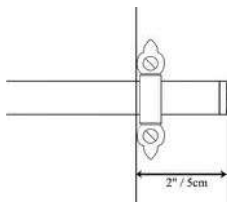

## **Product**

- The Tudor range of stair rods are available for either a runner carpet or fully fitted.
- The Tudor range are made to measure, see below for measuring guidelines.

### **Tudor Stair Rod For Carpet Runner.**

- We recommend that you add 4 inches (10cm) to the width of your carpet and use this measurement to give you the tip length of the stair rod.

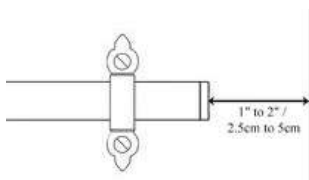

- Our standard runner bracket clearance is 10mm however if you have a deep pile carpet there is the option of using the 'Spacers' to give you more clearance. Please call for advice.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

### **Tudor Rod For Fully Fitted Carpet.**

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

### **Fitting Rods To Stair.**

- Both runner and fully fitted brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. A clearance hole of 4mm should be drilled to accommodate the screw shank. Remember to set your power drill on a low torque setting to avoid breaking the screws. For fully fitted carpets the supplied bracket sits on top of the rod and screws fix it through the carpet.

### **Care and Maintenance**

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair; as over spray can cause a speckled effect on the lacquered rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

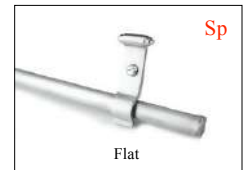

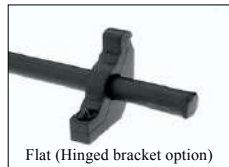

- Available for runner and fully fitted carpets. (*Hinged bracket option now available for runner only*)
- Available in Black or Stainless Steel.
- 2 finial designs: Ball and Flat.
- Available in stock lengths (see below).
- Custom sizes available on request.

## Blacksmith Prices

Hand beaten stair rods available in stock lengths only, from 24"(60.9cm) to 48" (121.9cm) in 2" (5.08cm) increments. Available in Black (Standard) and Stainless Steel (Specialised) *Sp*. Hinged bracket option for runner only at the *Same Price*.

Black	24" (60.9cm) to 36" (91.4cm) lengths	£12.84
	38" (106.7cm) to 48" (121.9cm) lengths	£14.07
Stainless Steel <i>Sp</i>	24" (60.9cm) to 36" (91.4cm) lengths	£22.44

## **Product**

- The Blacksmith range of stair rods are available for either a runner carpet or fully fitted.
- The Blacksmith range are only available in stock lengths, see facing page.

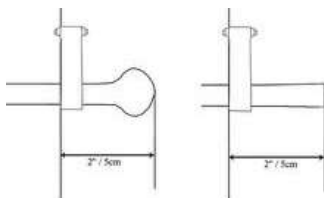

### **Blacksmith Rod For Fully Fitted Carpet.**

- We recommend that you leave a 1 to 2 inch (5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

### **Blacksmith Stair Rod For Carpet Runner.**

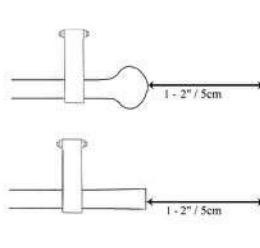

- We recommend that you add 4 inches (10cm) to the width of your carpet when choosing the Ball or Flat end, then use this measurement to give you the tip to tip length of the stair rod. This is the same for either the Universal or Hinged Bracket option.
- The Universal Blacksmith bracket can be used on both deep pile and thin carpets.
- If choosing the Hinged Bracket option bear in mind the clearance of the bracket is 14mm
- When used on a deep pile carpet the screw thread will be visible when viewed from the side.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

### **Blacksmith Rod For Fully Fitted Carpet.**

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

### **Fitting Rods To Stair.**

- Both runner and fully fitted brackets are supplied with number 8 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 3mm pilot hole and for hardwood create a 3.5mm hole. A clearance hole of 4mm should be drilled to accommodate the screw shank. Remember to set your power drill on a low torque setting to avoid breaking the screws. For fully fitted carpets the bracket sits on top of the rod and screw fixes it through the carpet.

### **Care and Maintenance**

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

**Option 4**

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

## Fitting Rods To Stair.

- The brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. Remember to set your power drill on a low torque setting to avoid breaking the screws.
- Fit one bracket to the tread and riser then cut the rod to size and put in place. Now fit the second bracket.

## Cleaning

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

# Homepride Stair Rods

- Available for runner carpets and fully fitted carpets.
- Eight finishes: Antique, Black, Brass, Bronze, Satin Nickel, Chrome, Pewter and Ivory.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

## Homepride Rod For Runner Carpet.

- The brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. Remember to set your power drill on a low torque setting to avoid breaking the screws.
- Fit one bracket to the tread and riser then cut the rod to size and put in place. Now fit the second bracket.

## Homepride Rod For Fully Fitted Carpet.

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

## Cleaning

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

# Victorian Stair Clips

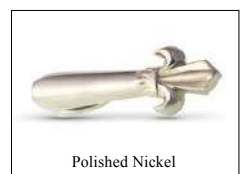

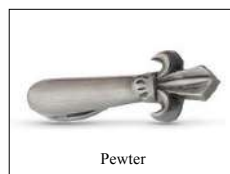

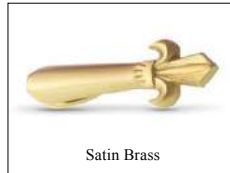

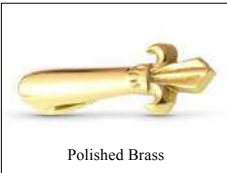

- Available in Polished Brass, Satin Brass, Antique Brass, Chrome, Satin Nickel, Black, Brushed Chrome, Pewter, Polished Nickel and Bronze.
- Sold in pairs.

## Victorian Stair Clip Prices

Available in Polished Brass, Satin Brass, Antique Brass, Chrome, Satin Nickel, Black, Brushed Chrome, Pewter, Polished Nickel and Bronze.

Per Pair

£7.95

## **Product**

- The Victorian Stair Clip for runner carpets only.
- The Victorian Stair Clip Range are sold as a pair.

## **Prepare Hinge Brackets For fitting**

- The Victorian Stair Clip fixing plate needs to be pivoted at 90 degrees to the main body of the clip. This gives access to the screw holes.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

## **Fitting Rods To Stair.**

- Fitting the Victorian Stair Clip is easier if done before fitting the carpet.
- First mark the width of the carpet where the tread meets the riser, use this mark to line up the inner edge of the fixing plate with where the edge of the carpet will be.
- Next measure the height of the carpet and underlay, this will give you a guide to ensure you fit the Victorian Stair Clip level.
- Now line the bottom surface of the Clip with the carpet height mark and have the fixing plate perfectly level. Mark with a pencil around the fixing plate.
- Pivot the fixing plate and line it up with the pencil mark and mark the holes.
- You can now make a template using the hole positions and carpet width and height marks to give the position of the hole on the remaining stairs.
- Victorian Stair Clips are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. Remember to set your power drill on a low torque setting to avoid breaking the screws.

## **Care and Maintenance**

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

Easyshims 2 x 6mm, 2 x 9mm, 2 x 12mm and 2 x 15mm.

£45.38

## Height Difference Rough Guide Carpet to Hard Floor

Base Floor to High Hard Floor = Height Difference (HD) rough guide for DoubleZ<sup>TM9</sup> using shims, chocks & underlay

(HD)	Shim	Chock	Base	Gap	Nap	Equals (HD)
16mm	6mm	+ 3mm	+ 1mm	+ 9mm	- 3mm	= 16mm
19mm	9mm	+ 3mm	+ 1mm	+ 9mm	- 3mm	= 19mm
22mm	12mm	+ 3mm	+ 1mm	+ 9mm	- 3mm	= 22mm
25mm	15mm	+ 3mm	+ 1mm	+ 9mm	- 3mm	= 25mm

**A PDF on how to make Side Shims is available for download at [stairrods.co.uk](http://stairrods.co.uk) under the FAQs**

## **Product**

- The Easyshim is the perfect way to raise the level of your carpet if you encounter a height difference.
- Used in a 'Combo' with our Easychocks/MDF spacer to transition a height of up to 25mm or add a lip or a 5mm Carpet Ramp (up to 30mm).

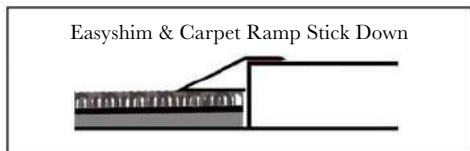

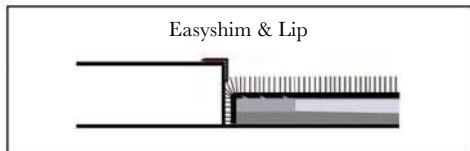

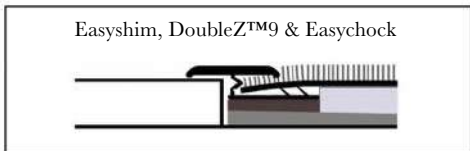

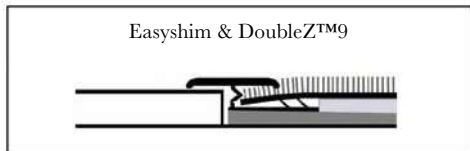

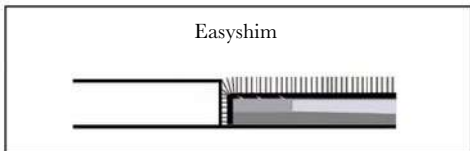

## **Fitting**

- The Easyshims can be either nailed or stuck down.
- Use the rough guide on the facing page to chose the correct 'Combo' for your Carpet to Hard Floor installation.

## **See some installation examples below**

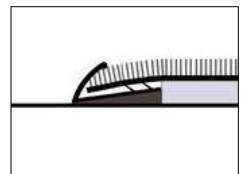

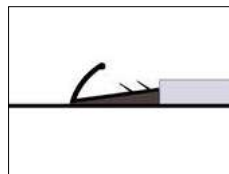

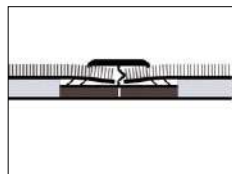

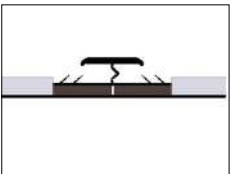

- A convenient 'Raised Base'.
- Ideal when using deep underlay.

## Easychocks & Easywedges Prices

A convenient 'Raised Base' for our DoubleZ™, Z Trim, Slim Z, Square and Single.

	1 Bucket	10 + Buckets
Easychock Bucket (approx 250)	£8.00	£7.11 each
Easywedge Bucket (approx 250)	£6.00	£5.33 each
Easychock Bucket (approx 1000)	£30.00	£28.00 each
Easywedge Bucket (approx 1000)	£22.00	£20.00 each

## **Product**

- The Easychocks & Easywedges are a convenient 'Raised Base' for use with our DoubleZ™/ Zbar, Square and Single.
- The Easychocks/MDF Spacer & Easywedges are supplied with every order of DoubleZ™, Square and Single, but are also available to purchase in buckets of 250 and 1000.

## **Fitting**

- The Easychocks can be used to achieve the height required and are supplied in a standard height of 3mm. They should be placed at each end of the door bar and located at the fixing holes then nailed through. It is then easy to slip the remaining Easychocks in place at the remaining fixing points along the door bar.

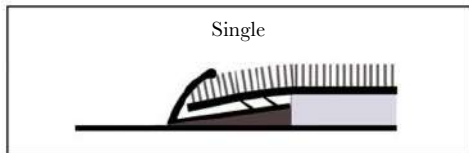

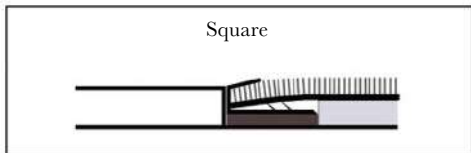

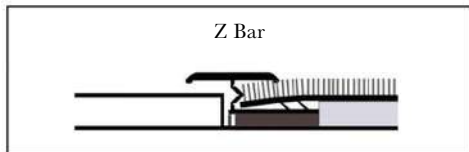

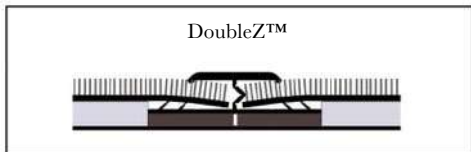

- The Easywedges can only be used singularly to achieve the height required and are supplied in a standard height of 3mm.. The Easywedges should be placed at each end of the door bar and located at the fixing holes then nailed through. It is then easy to slip the remaining Easychocks in place at the remaining fixing points along the door bar.

## **See some installation examples below**

- The DoubleZ™4 is a Double Naplock and Z Trim.
  - Use MDF strips to raise the base if required.
- Free MDF Strips Supplied**

## DoubleZ™4 Prices

		Individual Price		50 Price (Any Trims)	
Profile Type	Size	Standard	Specialised	Standard	Specialised
	90cm	£15.99	£23.32	£14.39	£20.41
	180cm	£31.98	£46.44	£28.78	£40.82
	270cm	£47.97	£69.66	£43.17	£61.23

## **Product**

- The Premier DoubleZ4 uses a base material of solid brass for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

## **Fitting**

- The DoubleZ4 is used for thin carpets i.e. flatweaves/mini boucle sisal products or by peeling off one side, it can be used for hard flooring of similar height.
  - Includes 3mm MDF spacer 40cm long. Cut in short lengths and place under nail holes to raise base.
- 
- Score along the peel line with a Stanley Knife and peel away with a pair of pliers.
  - The DoubleZ bar will 'nap' down if required.
  - Use a block of wood wrapped in carpet and then gently hammer down the trim making it level, never at an angle.
  - Use the MDF strips provided to raise the base 3mm when used in conjunction with an underlay system.

Direct Stick

Floating LVT / Direct Stick

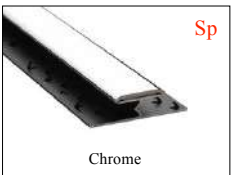

**Cleaning Guide, See page 112**

- The DoubleZ™9 is a Double Naplock and Z Trim.
  - Use the MDF strips provided to raise the base.
- Free MDF Strips Supplied**

## DoubleZ™9 Prices

		Individual Price		50 Price (Any Trims)	
Profile Type	Size	Standard	Specialised	Standard	Specialised
	90cm	£16.50	£23.83	£14.85	£20.85
	180cm	£33.00	£47.66	£29.70	£41.70
	270cm	£49.40	£71.49	£44.55	£62.55

## **Product**

- The Premier DoubleZ9 uses a base material of solid brass for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

## **Fitting**

- The DoubleZ can be used for carpet to carpet or by peeling off one side, it can be used for carpet to a hard floor up to about 13mm in height.
- Includes 3mm MDF spacer 40cm long. Cut in short lengths and place under nail holes to raise base.
- Score along the peel line with a Stanley Knife and peel away with a pair of pliers.

- The DoubleZ bar will 'nap' down about 2-4mm to give the carpet a firm grip on the pins.
- Used as a Z bar, the trim should start a few millimetres above the height of the hard floor to allow a 2-4mm 'nap' down... for higher hard floors (above 13mm) consider the use of Easyshims to raise the carpet.
- Use a block of wood wrapped in carpet and then gently hammer down the trim making it level, never at an angle.
- Use the MDF strips provided to raise the base 3mm to allow optimum hold on the pins.

## **Product**

- The Premier Dividers uses a base material of solid brass for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

## **Fitting**

- The Dividers are for use with non-floating floors to offer a fine edge trim which can be curved.
- Suitable for glue down and stretch fit carpet to LVT Dryback (stick down) and non-floating hard floors.
- Unsuitable for any wood flooring as this requires expansion and a trim would prevent this. Including glue down.
- Requires a detailed sub floor prep to match heights.
- Pre-drilled and counter sunk at 8cm centres.

## **Product**

- The Premier LVT Nosing (no bull) uses a base material of solid brass for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

## **Fitting**

- The no bull is pre-drilled and countersunk on the middle and back edge.
- Includes a 2mm MDF full length spacer to raise the base for 6mm plywood.
- Allows expansion for Floating LVT on the top step to landings.
- Suitable for LVT 2.5mm, 3mm, 4mm and 5mm.
- Consult the flooring manufacturer regarding expansion requirements on Floating LVT.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

## **See some installation examples below**

**Cleaning Guide, See page 112**

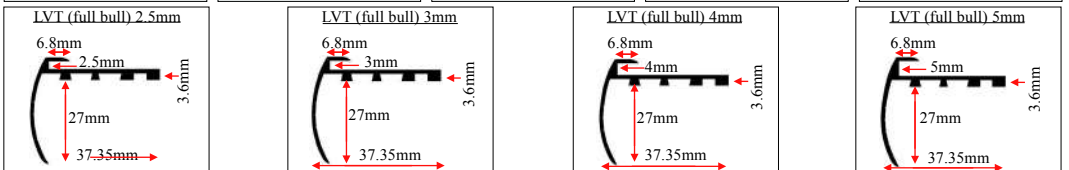

# Premier LVT Nosing (full bull)

- LVT on a bullnose step.
- For use with LVT Dryback (glue down), Floating LVT, WPC/SPC with max expansion of 4-5mm and some thin glue down carpets.
- Pre-drilled middle and back edge.
- Includes 2mm full length MDF spacer.

# Premier Bendybull

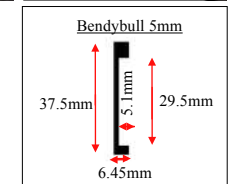

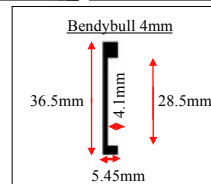

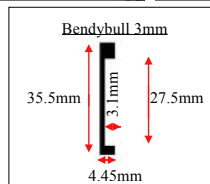

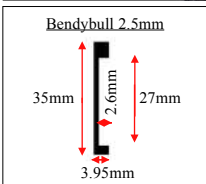

79

Bendybull is an attractive stair nosing for curved/curtail treads and straight steps between 22mm-25mm thickness. For use with LVT, Floating LVT, WPC/SPC (any multi-layered flooring), Safety Flooring and some glue down carpets at 5-6mm.

## Premier Bendybull

Profile Type	Size	Individual Price		50 Price (Any Trims)	
		Standard	Specialised	Standard	Specialised
2.5mm	90cm	£19.06	£23.93	£17.15	£21.54
	180cm	£38.12	£47.86	£34.30	£43.08
	270cm	£57.18	£71.79	£51.45	£64.62
3mm	90cm	£19.06	£23.93	£17.15	£21.54

Carriage paid on 3 and over. Less than 3, add £7.50 for carriage, unless ordered with other items.

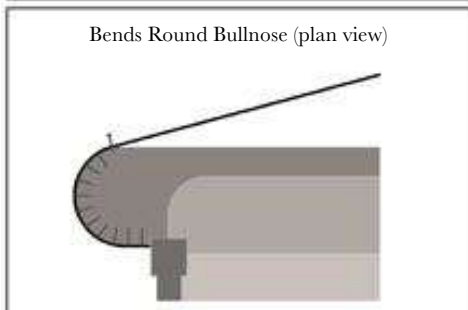

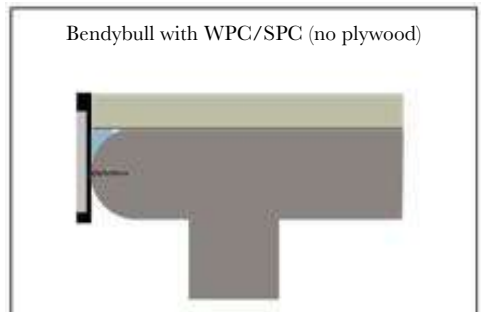

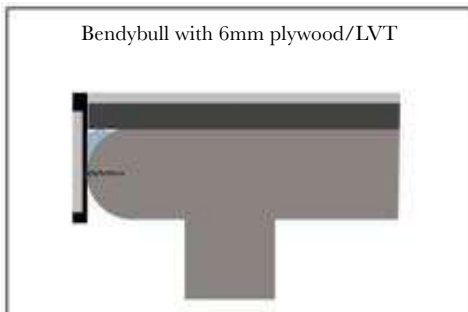

## Product

- The Premier Bendybull uses a base material of solid brass for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

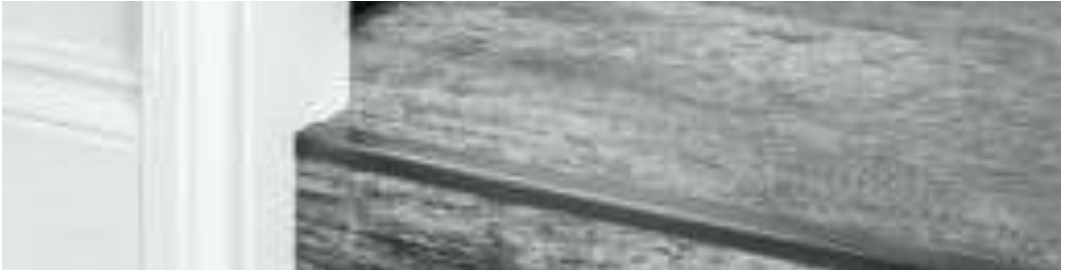

## Fitting

- Premier Bendybull is available in 4 recess options: 2.5mm, 3mm, 4mm and 5mm.
- Bendybull 2.5mm and 3mm (recess) for use with LVT/plywood prep. Bendybull 4mm and 5mm (recess) for use with Floating LVT/plywood prep.
- See our fitting video on Stairrods YouTube channel for Bendybull full install, Bendybull light commercial and Bendybull with WPC/SPC.
- Pre-drilled/countersunk at 75mm centres and supplied with Spax-M self-drilling screws (do not pre-drill). Requires a T20 star bit.
- Use a dim strip or strip of vinyl for an exact measure.
- We advise the use of a non expanding cartridge adhesive such as F-Ball & Co's Stycco Flex as a secondary fixing.
- Template the plywood after the Bendybull is fitted.
- We do not have an overlap option for the top step to allow expansion on Floating LVT and WPC/SPC products. We suggest using our Full Bull or our new Ali Wrap Nosing overlap option.
- For WPC/SPC between 6.5mm and 8mm omit the plywood and use the 2.5mm recess.
- Consider 4mm ply with thinner SPC. For steep steps consider 4mm ply rather than 6mm to drop the height of the nosing.
- Bendybull will not mitre/return as it produces a sharp corner. Consider our new Ali Wrap Nosings.

# Technical

## **Product**

- The Premier Lips use a base material of solid brass for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

## **Fitting**

- The Lips are supplied with pre-attached adhesive tape suitable for non-porous surfaces.
- Degrease surface before installation.
- Various tape options.
- The Lips will be supplied with tape option 1 unless specified.
- Suitable for matwell surrounds, stop ends/junctions with windows/doors, plinths etc.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

## **See some installation examples below**

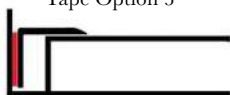

Tape Option 1

Tape Option 2

Tape Option 3

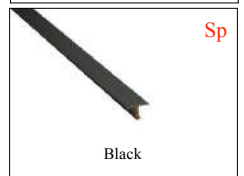

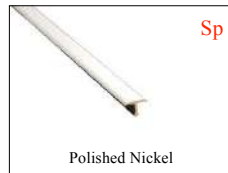

**Cleaning Guide, See page 112**

- The Premier Ts allow for slight imperfections in joints and enables a gap between floor finishes to be incorporated during installation. Allowing natural expansion in flooring materials such as ceramics and wood.
- Premier Ts are fitted after the floorcoverings have been installed, making them ideal for use when the installation of the floorcoverings is undertaken by different trades (e.g. ceramic contractors and flooring contractors) where the trims cannot be fixed until both floors have been completed.

## T Prices

		Individual Price		50 Price (Any Trims)	
Profile Type	Size	Standard	Specialised	Standard	Specialised
<b>Little T</b> 	90cm	£7.84	£11.34	£7.06	£10.21
	180cm	£15.68	£22.68	£14.12	£20.42

Carriage paid on 5 and over. Less than 5, add £7.50 for carriage, unless ordered with other items.

## **The Product**

- The Premier Ts use a base material of solid brass for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

## **Fitting**

- The Ts are fitted with a silicone adhesive.
- Suitable for ceramics and stone transitions of similar height.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

**See an installation example below**

Use silicone adhesive to secure Premier Ts

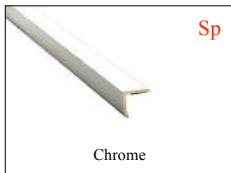

**Cleaning Guide, See page 112**

- Little nosing for a right angled or rake backed step.
- Ideal for LVT dryback (glue down) and ceramics.

## Little Nose Prices

Profile Type	Size	Individual Price		50 Price (Any Trims)	
		Standard	Specialised	Standard	Specialised
	90cm	£10.36	£13.86	£9.32	£12.47
	180cm	£20.72	£27.72	£18.64	£24.94
	270cm	£31.08	£41.58	£27.96	£37.41

Carriage paid on 5 and over. Less than 5, add £7.50 for carriage, unless ordered with other items.

## **Product**

- The Premier Little Nose uses a base material of solid brass for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

## **Fitting**

- The Little Nose is supplied with pre-attached adhesive tape suitable for non-porous surfaces.
- Degrease surface before installation.
- Prior to removing the backing tape, lay the nosing in position and mark the position of the back edge with pieces of masking tape, this will be your guide for positioning the nosing during fitting. This needs to be done as it gives the exact final position of the nosing allowing for variations in the rake of the risers.

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

## Product

- The Premier Matwells (floating) uses a base material of solid brass for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

## Fitting

- See our fitting video on Stairrods YouTube channel.
- Suitable for: floating LVT, WPC/SPC, Engineered Wood Flooring, Timber Flooring and Laminates.
- Use the flooring to create a void.
- Use a non-expanding cartridge adhesive e.g. Stycco Flex or similar. Can be mechanically fixed when the adhesive has set.
- See our guide below regarding build-up. This is a guide for the estimator with a built in tolerance of 1-2mm from the lip to the floor (adhesive, floor level etc).
- Heights above 12mm suggest 50mm (2") centres.
- Consult the flooring manufacturer regarding expansion requirements on floating floors.

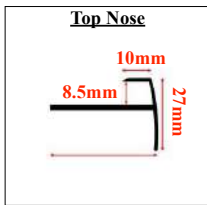

**Cleaning Guide, See page 112**

- Ali Top Nose for use with 7-8mm laminate to a carpeted stair.
- Pre-drilled middle and back edge.

### Ali Top Nose Prices

		Individual Price	50 Price (Any Trims)
<b>Ali Top Nose</b>	<b>90cm</b>	£7.98	£7.18
	<b>180cm</b>	£15.96	£14.36
	<b>270cm</b>	£23.94	£21.54

## **Product**

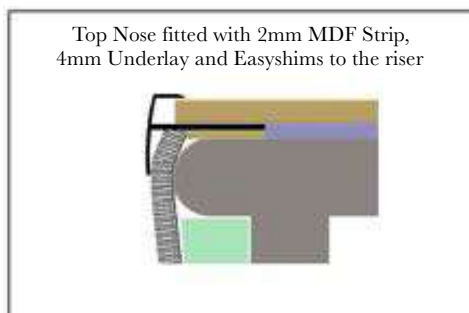

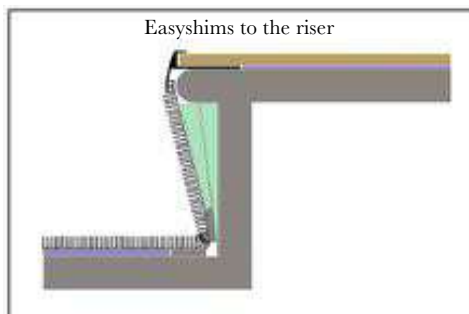

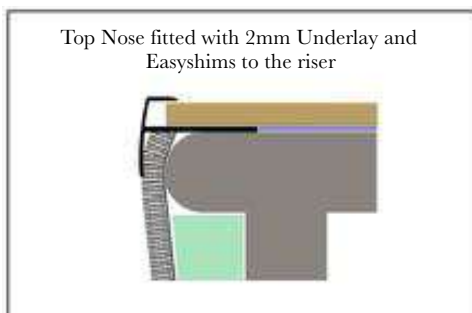

- The Ali Top Nose uses a base material of aluminium for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

## **Fitting**

- Use in conjunction with our Easyshims, the carpet on the riser can be adhered for a secure fix (detail below). This continues the waterfall look of the carpet on the steps below.
- 7-8mm Laminate can be used with 2mm underlay or use 2mm MDF spacers (supplied) for thicker underlay systems. Pre-drilled and countersunk at 150mm (6") centres and supplied with Spax-M self-drilling screws (do not pre-drill).
- Requires a T20 star bit.

# AliTrims

The following pages are all about *Installing flooring in our trims.*

So, what does this mean? Well rather than trying to find a trim that matches the flooring, we use flooring. Sounds simple and yes, it is!

Tramline Trims can be used for all LVT and Laminates!

Wrap Nosings can be used for all LVT and all WPC/SPC.

What do we need to know?

Most WPC/SPC will peel or plane as below pictures.

Laminates 8mm 10mm etc will do this in 7 minutes!

# AliTrims

	180cm	£16.44	£14.80
	270cm	£24.66	£22.20
6.5mm WPC Overlap Nosing	90cm	£9.20	£8.28
	180cm	£18.40	£16.56
	270cm	£27.60	£24.84

Carriage paid on 5 and over. Less than 5, add £7.50 for carriage, unless ordered with other items.

## Product

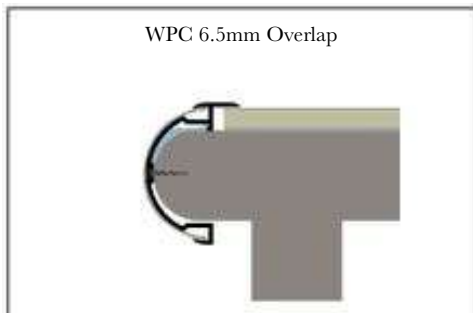

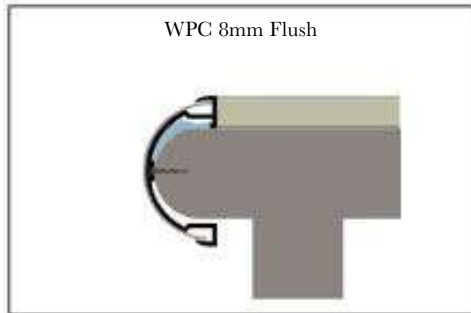

- The Ali Wrap Nosing uses a base material of aluminium for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm.

## Fitting

- See our fitting videos on Stairrods YouTube channel: fitting LVT and WPC/SPC.
- The Wrap Nosing is available for LVT 2.5mm or 3mm dryback (glue down) and requires 6mm plywood prep.
- The Wrap Nosing is available for WPC 8mm and WPC/SPC 6.5mm either Flush or Overlap (for the top step allowing expansion).
- Use the top layer to form the curve.
- Fits to existing bullnose (overhang) tread without squaring off the nosing or building out the riser.
- Designed for 22mm-25mm tread thickness.
- Use Stycco Flex adhesive or similar.
- Supplied with pre-attached adhesive tape for the LVT inlay.
- Pre-drilled and countersunk at 100mm (4") centres and supplied with Spax-M self-drilling screws (do not pre-drill). Requires a T20 star bit.
- Suitable for returns (mitres).

ANY QUESTIONS  
Please call 01207 591176 For friendly expert advice.

## See some installation examples below

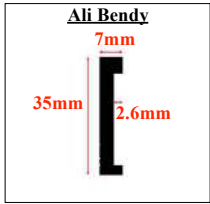

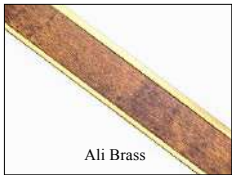

- Ali Bendybull is an attractive stair nosing for curved/curtail treads and straight steps between 22mm-25mm thickness.
- For use with LVT 2-3mm and WPC/SPC (any multi-layered flooring) and Floating LVT planed down.
- Can be used on all steps **or** in conjunction with our Wrap Nosing which has an overlap option required for the top step requiring expansion for WPC/SPC.

**Ali Bendybull Prices**

Profile Type	Size	Individual Price	50 Price
<b>Ali Bendybull</b>	<b>90cm</b>	£10.98	£9.88
	<b>180cm</b>	£21.96	£19.76
	<b>270cm</b>	£32.94	£29.64

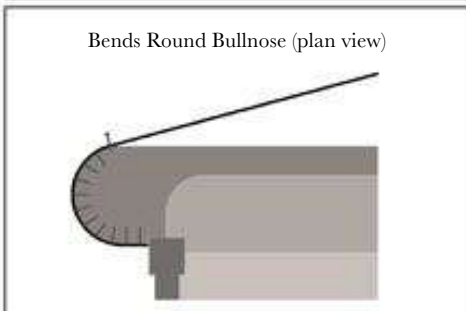

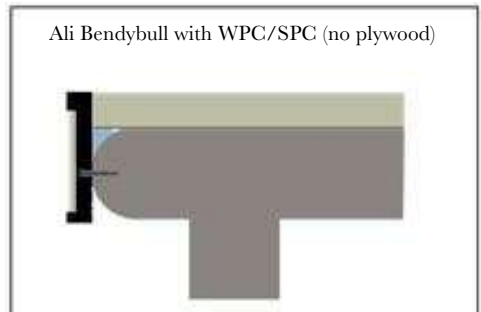

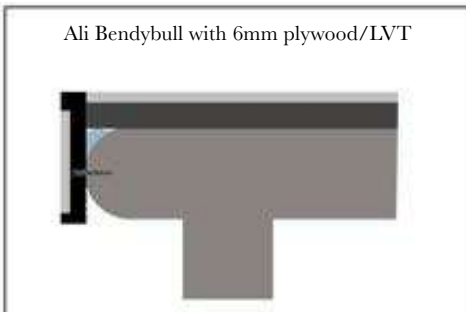

## **Product**

- The Ali Bendybull uses a base material of aluminium for a high-quality installation.
- Available lengths: 90cm, 180cm and 270cm..

## **Fitting**

- Ali Bendybull is available with a 3mm recess.
- Suitable for LVT 2-3mm and Floating LVT planed down with plywood prep and WPC/SPC 6.5-8mm with no plywood.
- Can be used on all steps **or** in conjunction with our Wrap Nosing (8 or 6.5mm) which has an overlap option required for the top step requiring expansion for WPC/SPC and Floating LVT (with underlay).
- See our fitting video on Stairrods YouTube channel for Bendybull full install, Bendybull light commercial and Bendybull with WPC/SPC
- Pre-drilled/countersunk at 75mm centres and supplied with Spax-M self-drilling screws (do not pre-drill). Requires a T20 star bit.
- Use a dim strip or strip of vinyl for an exact measure.
- We advise the use of a non expanding cartridge adhesive such as F-Ball & Co's Stycco Flex as a secondary fixing.
- We advise against mitring the Bendybull as it will produce a sharp corner. Consider Ali Wrap Nosings as an alternative.
- Consider 4mm ply with thinner SPC.
- For steep steps consider 4mm ply rather than 6mm to drop the height of the nosing.

## **See some installation examples**

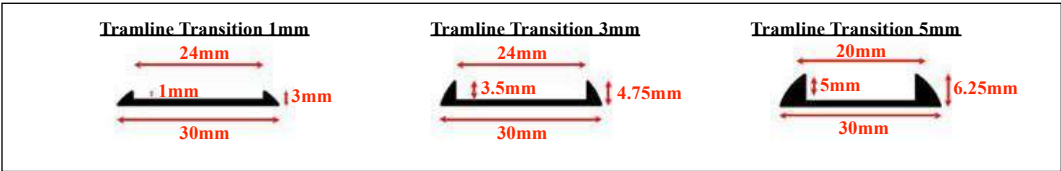

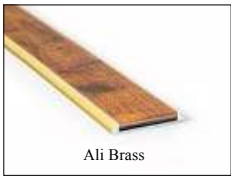

- An alternative to ‘T’ mouldings.
- New Tramline Transition is available in 3 recess options: 1mm, 3mm and 5mm.
- For WPC/SPC (1mm), LVT 2-3mm (3mm), and Floating LVT/Click/planned down Laminate (5mm).
- Includes offset pre-attached adhesive tape for the floor and the recess.
- For use with floating or non-floating **level** floors.

## Tramline Transition Prices

Profile Type	Size	1 +	10 +	50 +	100 +
<b>1mm Recess</b>	<b>180cm</b>	£7.53 Each	£5.53 Each	£4.98 Each	£4.48 Each
<b>3mm Recess</b>	<b>180cm</b>	£8.69 Each	£6.69 Each	£5.92 Each	£5.33 Each
<b>5mm Recess</b>	<b>180cm</b>	£10.58 Each	£8.58 Each	£7.97 Each	£7.17 Each

## **Product**

- The Ali Tramline Transition uses a base material of aluminium for a high-quality installation.
- Available length 180cm.

## **Fitting**

- Tramline Transition is available in 3 recess options: 1mm, 3mm and 5mm.
- Tramline 1mm (recess) for use with WPC/SPC flooring. Install flooring into the 24mm recess by peeling off the top layer. May require heat. See our fitting video on Stairrods YouTube channel.
- Tramline 3mm (recess) for LVT 2-3mm When installed using a recommended underlay system requiring expansion. Install flooring into the 24mm recess.
- Tramline 5mm (recess) for Floating LVT/Click 4-5mm flooring and Laminate flooring by planing off the back. Install flooring into the 20mm recess.
- Includes offset pre-attached adhesive tape for fitting to the floor and the recess.
- Surface may require additional preparation prior to adhering the trim.
- See our fitting video on Stairrods YouTube channel showing how strong this install is.

**Carriage paid on 3 and over. Less than 3, add £7.50 for carriage, unless ordered with other items.**

## **Product**

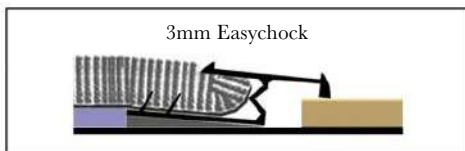

- The Ali TramlineZ uses a base material of aluminium for a high-quality installation.
- Available length 90cm & 180cm.

## **Fitting**

- Used for stretch-fit carpets, medium height, to LVT and WPC/SPC 8-6mm and 8mm Laminate.
- TramlineZ is available in 2 recess options: 1mm and 3mm.
- TramlineZ 1mm (recess) is for use with WPC/SPC (any multi-layered flooring) by peeling off the top layer. See our fitting video on Stairrods YouTube channel.
- TramlineZ 3mm (recess) for LVT 2-3mm and Floating LVT/Click 4-5mm and Laminate flooring by planing down to 3mm.
- Install flooring into the recess.
- Includes pre-attached adhesive tape.
- Consider underlay and carpet thickness as this will have a bearing on the heights.
- Use the Easywedges provided to raise the base 3mm.

## Product

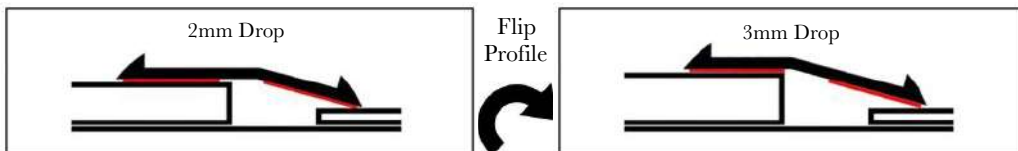

- The Ali Tramline LVT Reducer uses a base material of aluminium for a high-quality installation.
- Available lengths 180cm.

## Fitting

- New Tramline Reducer is available in 2 recess options: 1mm and 3mm.
- For WPC/SPC (1mm), LVT 2-3mm (3mm) and Floating LVT/Click planed down.
- Tramline 1mm (recess) for use with WPC/SPC (any multi-layered flooring). Install flooring into the recess by peeling off the top layer. May require heat.
- Tramline 3mm (recess) for LVT 2-3mm when installed using a recommended underlay system requiring expansion and Floating LVT/Click 4-5mm flooring by planing down. Install flooring into the recess. 'P' groove the back of the LVT to allow for ramp.
- Four height options are available: 2-3, 4-5, 6-7, 8-9mm.
- As an example, simply turn the trim around to provide either a 2 or 3mm drop.
- Includes pre-attached adhesive tape for fitting to the floor and the recess.
- Surface may require additional preparation prior to adhering the trim.
- See our fitting video on Stairrods YouTube channel showing how strong this install is.

## The Product

- Easybind is a simple but effective alternative to whipping carpet edges on stair runners and rugs. Easybind can be fitted to the carpet on site so no delays in waiting for the carpet to be whipped.

## Easybind Carpet Edging For Carpet Runners and Rugs.

- Simply measure the edges of the carpet where you will be fitting the Easybind and allow a little extra then cut accordingly.

## Easybind Accessories

<p>Easybind Starter Kit contains the following:</p> <ul style="list-style-type: none"> <li>• 1 Easybind glue gun, 10 Easybind glue sticks</li> <li>• Easybind swatch box</li> <li>• Easybind long nozzle - A sample jar of Easystuds.</li> <li>• 35 short lengths of Easybind showing all 35 colours.</li> <li>• 'Try Me' 1 metre length of Easybind.</li> <li>• A small roll of Sellotape to make your first cut.</li> </ul>	<b>£30.00</b>
<b>Easybind long nozzle for glue gun</b>	<b>£9.79</b>
<b>Easybind glue gun with long nozzle</b>	<b>£26.78</b>
<b>Easybind hot melt glue sticks (5kg)</b>	<b>£31.30</b>

Prepare the carpet edges by cutting with a sharp knife to produce a clean cut. Be aware of any surface below the carpet when cutting so as not to cause damage.

Easybind will fray when cut so to prevent this apply adhesive tape around the rope at the cutting point.

Always start in the middle of a straight run as it is easier to produce a clean join on a straight section as opposed to a curve or corner. Peel backing off the adhesive tape.

Be sure to run the rope edging parallel to the carpet edge leaving a gap to accommodate the glue gun nozzle.

When going around an outside corner cut the binding not the rope and fold underneath, the same applies to an inside corner without the need to fold the binding on the back.

When creating a join apply adhesive tape to the area that will be cut, this prevents the rope edging from fraying when being cut.

After cutting match the rope pieces together. **TIP:** Have the ends of the adhesive tape visible to allow ease of removal. Seal the two pieces of rope with a spot of hot glue and peel the tape away.

When you are happy with the join and the corners etc. Use the hot glue gun to apply a bead of glue between the binding and the carpet backing, pinching together as you go. Be careful not to get glue on the carpet.

For longer runs try a piece of 3" x 2" to help attach large sections of the binding. Use a glue gun pad when the gun is not in use to avoid glue dripping onto either the floor or carpet.

## G9 Geordie Gripper Prices

1 box (50 metres)	£20.99 per box
3 boxes (150 metres)	£19.99 per box
10 boxes (500 metres)	£18.99 per box

- 9mm Gripper for deep underlays.
- 9mm high and 28mm wide.
- 24mm wood nails only.
- Pin height 4.5mm.
- 50 metres in a box.
- Use deep, high quality underlay where required without compromising on carpet grip.
- No waterfall effect when using deep underlays.
- No more shimming up standard gripper to gain height.
- Our 24mm nails allow you to get a full 'Nail Grip' into the floor.
- Sell as a package with thicker underlay.
- Quicker install.

**Carriage paid on 3 and over on the G9 Geordie Gripper.  
Less than 3, add £7.50 for carriage, unless ordered with other items.**

**Available from February 2020**

- G6 Chopped Up Geordie Gripper 150mm 6" (6mm by 25mm)
- Chopped to British Standard lengths.

Pallet prices available

## **Post Fitting**

Premier Trims should always be fitted with the protective tape on.

If the Premier Trim has been fitted without the tape. It's best to give a quick wipe with White vinegar.

## **Brass**

Remove spills immediately to limit corrosion with White vinegar. Brass will tarnish over time and we recommend a polishing cloth such as HG copper shine cloth available from most DIY stores. Avoid contact with floor coverings.

Should corrosion appear, we use a Mirka Total Finishing pad P1500 (grey). Rub the area to remove contamination and buff up with HG copper shine cloth. If in doubt, please email [sales@stairrods.co.uk](mailto:sales@stairrods.co.uk)

## **Satin Brass**

Remove spills immediately to limit corrosion with White vinegar. Brass will tarnish over time and we recommend a polishing cloth such as HG copper shine cloth available from most DIY stores. Avoid contact with floor coverings.

Should corrosion appear, we use a Mirka Total Finishing pad P1500 (grey). Rub the area to remove contamination and buff up with HG copper shine cloth. If in doubt, please email [sales@stairrods.co.uk](mailto:sales@stairrods.co.uk)

## **Antique bronze**

Remove spills immediately to limit corrosion with White vinegar. Brass will tarnish over time and we recommend a polishing cloth such as HG copper shine cloth available from most DIY stores. Avoid contact with floor coverings.

Should corrosion appear, we use a Mirka Total Finishing pad P1500 (grey). Rub the area to remove contamination and buff up with HG copper shine cloth. This may go down to the solid brass base however over time the 'rubbed' lighter area will tarnish/blend into the antique finish. If in doubt, please email [sales@stairrods.co.uk](mailto:sales@stairrods.co.uk)
