“All flooring materials should be installed in accordance with their relevant British Standard, if installed incorrectly this could result in possible failure and have a detrimental affect on our profiles”

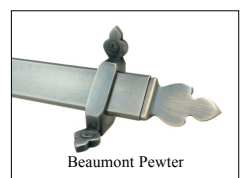

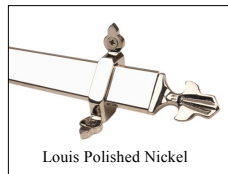

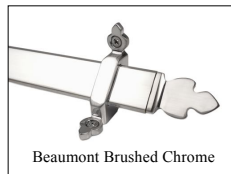

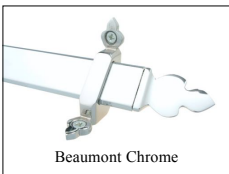

Royale Stair Rods

- Available for runner and fully fitted carpets.
- Three finial designs: Beaumont, Louis, Vue.
- Ten finishes: Antique Brass, Antique Bronze, Black, Brass, Brushed Chrome, Chrome, Pewter, Polished Nickel, Satin Brass, Satin Nickel.
- All finial designs are available in all colours in any combination.

Royale Prices

Hollow Triangular Rod	Runner	Fully Fitted
For any length up to 36" (91.5cm), thereafter add 61p/inch (2.5cm)	£28.37	£25.32

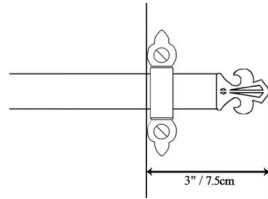

Product

- The Royale range of stair rods are available for either a runner carpet or fully fitted.
- The Royale range are made to measure, see below for measuring guidelines.

Royale Stair Rod For Carpet Runner.

- We recommend that you add 6 inches (15cm) to the width of your carpet and use this measurement to give you the tip to tip length of the stair rod.

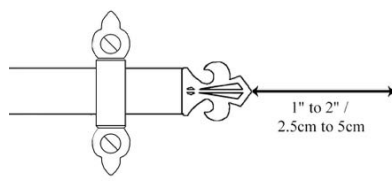

- Our standard runner bracket clearance is 10mm. Not recommended for deep pile carpets.

ANY QUESTIONS
Please call 01207 591176 For friendly expert advice.

Royale Rod For Fully Fitted Carpet.

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

Fitting Rods To Stair.

- Both runner and fully fitted brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. A clearance hole of 4mm should be drilled to accommodate the screw shank. Remember to set your power drill on a low torque setting to avoid breaking the screws. For fully fitted carpets the supplied bracket sits on top of the rod and screws fix it through the carpet.

Care and Maintenance

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

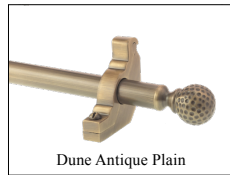

Eastern Promise Stair Rods

- Available in two rod styles: Plain and Reeded, for runner and fully fitted carpets.
- Three finial designs: Dubai, Cairo, and Dune.
- Ten finishes: Antique Brass, Antique Bronze, Black, Brass, Brushed Chrome, Chrome, Pewter, Polished Nickel, Satin Brass and Satin Nickel.
- All finial designs are available in all colours and rod styles in any combination.

Eastern Promise Prices

Hollow 5/8" Rod	Runner	Fully Fitted
PLAIN ROD 5/8" (16mm). For any length up to 36" (91.5cm), thereafter add 34p/inch (2.5cm)	£24.01	£21.01
REEDED 5/8" (16mm). For any length up to 36" (91.5cm), thereafter add 34p/inch (2.5cm)	£25.86	£23.44

Fully Fitted

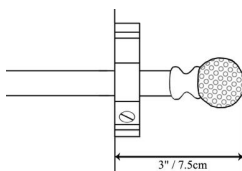

Product

- The Eastern Promise range of stair rods are available for either a runner carpet or fully fitted.
- The Eastern Promise range are made to measure, see below for measuring guidelines.

Eastern Promise Stair Rod For Carpet Runner.

- We recommend that you add 6 inches (15cm) when choosing the Cairo or Dubai finial, to the width of your carpet and use this measurement to give you the tip to tip length of the stair rod. If choosing the Dune finial add ,5 inches (11cm).

NOTE: Tip to tip measurement includes the finials.

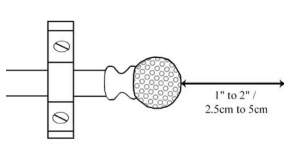

- Our standard runner bracket for this range has a clearance of 16mm however if you have either a deep pile carpet or thin carpet please call for advice.

ANY QUESTIONS
Please call 01207 591176 For friendly expert advice.

Eastern Promise Rod For Fully Fitted Carpet.

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

Prepare Hinge Brackets For fitting

- The brackets for runner carpets are hinged and consist of a bottom and top section and cannot be mixed with the top or bottom of other brackets. To fit the brackets the top and bottom must be separated to allow access to the screw holes. This requires little effort and is accomplished by removing the dome head screw and placing your thumbs on the hinge part of the bracket and first two fingers on the inside of the top and bottom and gently ease open the bracket. This will loosen the hinge and allow you to slide them apart.

Fitting Rods To Stair.

- Both runner and fully fitted brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. A clearance hole of 4mm should be drilled to accommodate the screw shank. Remember to set your power drill on a low torque setting to avoid breaking the screws. With the hinged bracket separated fit the bottom half to the stair and put the rod in place then re fit the top half of the bracket by sliding the two half together, finally close with the dome head screw. For fully fitted carpets the supplied bracket sits on top of the rod and screws fix it through the carpet.

Care and Maintenance

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

Crystal Stair Rods

- Available in three rod styles: Plain, Reeded and Spiral, for runner and fully fitted carpets.
- Four crystal colours: Amber, Rainbow, Rose, Sky.
- Ten finishes: Antique Brass, Antique Bronze, Black, Brass, Brushed Chrome, Chrome, Pewter, Polished Nickel, Satin Brass and Satin Nickel.
- All finial designs are available in all colours and diameters in any combination.
- Spiral rod only available up to 42" on this range.

Crystal Prices

Product

- The Tudor range of stair rods are available for either a runner carpet or fully fitted.
- The Tudor range are made to measure, see below for measuring guidelines.

Tudor Stair Rod For Carpet Runner.

- We recommend that you add 4 inches (10cm) to the width of your carpet and use this measurement to give you the tip length of the stair rod.

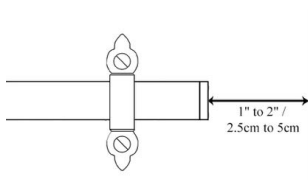

- Our standard runner bracket clearance is 10mm. Not recommended for deep pile carpets.

ANY QUESTIONS
Please call 01207 591176 For friendly expert advice.

Tudor Rod For Fully Fitted Carpet.

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

Fitting Rods To Stair.

- Both runner and fully fitted brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. A clearance hole of 4mm should be drilled to accommodate the screw shank. Remember to set your power drill on a low torque setting to avoid breaking the screws. For fully fitted carpets the supplied bracket sits on top of the rod and screws fix it through the carpet.

Care and Maintenance

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled effect on the lacquered rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

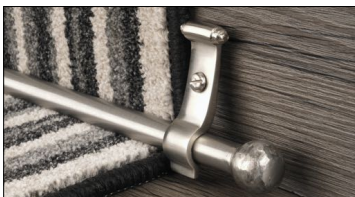

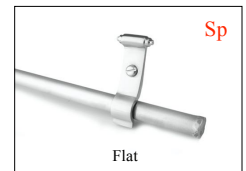

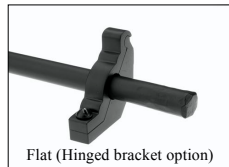

- Available for runner and fully fitted carpets. (*Hinged bracket option now available for runner only*)
- Available in Black or Stainless Steel.
- 2 finial designs: Ball and Flat.
- Available in stock lengths (see below).
- Custom sizes available on request.

Blacksmith Prices

Hand beaten stair rods available in stock lengths only, from 24"(60.9cm) to 48" (121.9cm) in 2" (5.08cm) increments. Available in Black (Standard) and Stainless Steel (Specialised) *Sp*. Hinged bracket option for runner only at the *Same Price*.

Black	24" (60.9cm) to 36" (91.4cm) lengths	£14.30
	38" (96.5cm) to 48" (121.9cm) lengths	£15.68
Stainless Steel <i>Sp</i>	24" (60.9cm) to 36" (91.4cm) lengths	£25.00

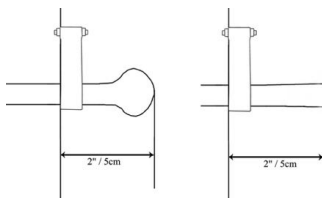

Product

- The Blacksmith range of stair rods are available for either a runner carpet or fully fitted.
- The Blacksmith range are only available in stock lengths, see facing page.

Blacksmith Stair Rod For Carpet Runner.

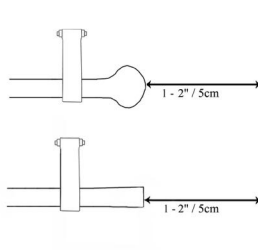

- We recommend that you add 4 inches (10cm) to the width of your carpet when choosing the Ball or Flat end, then round up to the next even stock size available.
Example. A 27" (runner carpet) + 4" (recommended overhang) = 31" this would need rounded up to 32" as we only stock the rods in 2" increments starting from 24".
- This is the same for either the Universal or Hinged Bracket option.
- The Universal Blacksmith bracket can be used on both deep pile and thin carpets.
- If choosing the Hinged Bracket option bear in mind the clearance of the bracket is 14mm
- When used on a deep pile carpet the screw thread will be visible when viewed from the side.

ANY QUESTIONS
Please call 01207 591176 For friendly expert advice.

Blacksmith Rod For Fully Fitted Carpet.

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

Fitting Rods To Stair.

- Both runner and fully fitted brackets are supplied with number 8 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 3mm pilot hole and for hardwood create a 3.5mm hole. A clearance hole of 4mm should be drilled to accommodate the screw shank. Remember to set your power drill on a low torque setting to avoid breaking the screws. For fully fitted carpets the bracket sits on top of the rod and screw fixes it through the carpet.

Care and Maintenance

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

Homepride Rod For Runner Carpet.

- The brackets are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. Remember to set your power drill on a low torque setting to avoid breaking the screws.
- Fit one bracket to the tread and riser then cut the rod to size and put in place. Now fit the second bracket.

Homepride Rod For Fully Fitted Carpet.

- Depending on the width of the stair we recommend that you leave a 1 to 2 inch (2.5 to 5cm) gap between the stringboard and the tip of the rod at both sides of the staircase.

Cleaning

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

Victorian Stair Clips

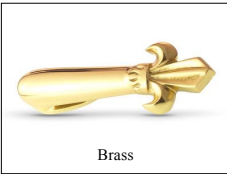

- Available in Brass, Satin Brass, Antique, Chrome, Satin Nickel, Black, Brushed Chrome, Pewter, Polished Nickel and Bronze.
- Sold in pairs.

Product

- The Victorian Stair Clip for runner carpets only.
- The Victorian Stair Clip Range are sold as a pair.

Prepare Hinge Brackets For fitting

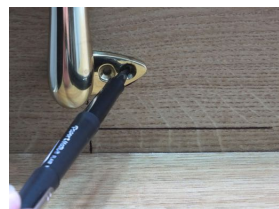

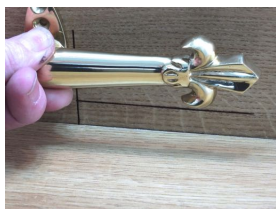

- The Victorian Stair Clip fixing plate needs to be pivoted at 90 degrees to the main body of the clip. This gives access to the screw holes.

ANY QUESTIONS
Please call 01207 591176 For friendly expert advice.

Fitting Rods To Stair.

- Fitting the Victorian Stair Clip is easier if done before fitting the carpet.
- First mark the width of the carpet where the tread meets the riser, use this mark to line up the inner edge of the fixing plate with where the edge of the carpet will be.
- Next measure the height of the carpet and underlay, this will give you a guide to ensure you fit the Victorian Stair Clip level.
- Now line the bottom surface of the Clip with the carpet height mark and have the fixing plate perfectly level. Mark with a pencil around the fixing plate.
- Pivot the fixing plate and line it up with the pencil mark and mark the holes.
- You can now make a template using the hole positions and carpet width and height marks to give the position of the hole on the remaining stairs.
- Victorian Stair Clips are supplied with number 6 screws and you must drill a pilot hole before fixing the brackets to the stair. For softwood create a 2.5mm pilot hole and for hardwood create a 3mm hole. Remember to set your power drill on a low torque setting to avoid breaking the screws.

Care and Maintenance

- We recommend using a damp cloth to keep the rods clean, any household cleaners used to clean the wood and paint work of the staircase should be applied to the cloth and not directly onto the surface of the stair, as over spray can cause a speckled tarnish on the rods. If any liquids are inadvertently spilt on the stair rods they should be cleaned immediately with a damp cloth and dried with a clean cloth.

Height Difference Rough Guide Carpet to Hard Floor

Base Floor to High Hard Floor = Height Difference (HD) rough guide for DoubleZ™⁹ using shims, chocks & underlay

(HD)	Shim	Chock	Base	Gap	Nap	Equals (HD)
16mm	6mm	+ 3mm	+ 1mm	+ 9mm	- 3mm	= 16mm
19mm	9mm	+ 3mm	+ 1mm	+ 9mm	- 3mm	= 19mm
22mm	12mm	+ 3mm	+ 1mm	+ 9mm	- 3mm	= 22mm
25mm	15mm	+ 3mm	+ 1mm	+ 9mm	- 3mm	= 25mm

A PDF on how to make Side Shims is available for download at stairrods.co.uk under the FAQs

Product

- The Easyshim is the perfect way to raise the level of your carpet if you encounter a height difference.
- Can accommodate up to a maximum height of 40mm.
- Use in combination with various Stairrods trims.
- Available in four options 6, 9, 12 & 15mm
- 2 corners shims can be created using single shim..

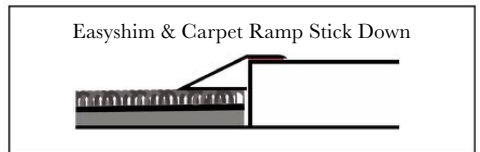

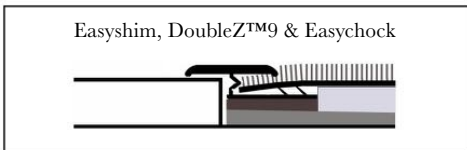

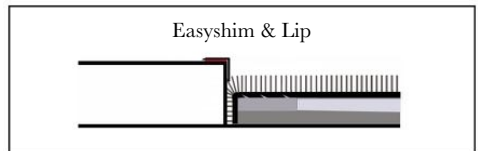

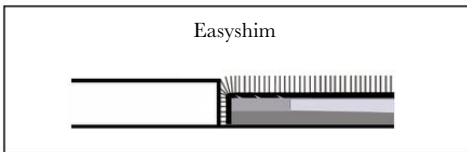

Installation

- Easyshims can be either mechanically fixed or adhered with an appropriate adhesive.
- Watch our installation video at www.stairrods.co.uk for more information.

ANY QUESTIONS
Please call 01207 591176 For friendly expert advice.

See some installation examples below

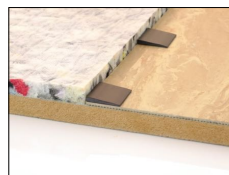

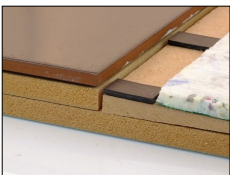

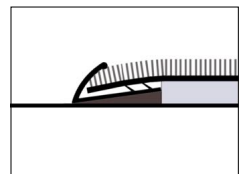

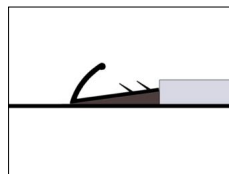

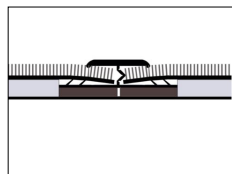

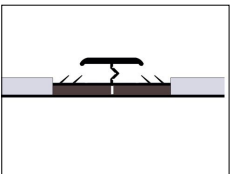

- Used to raise the profile for stretch fit installations.
- Raising the base allows for optimal teeth penetration.
- Easywedge's used to raise the back edge of Singles, Square Edge's etc.

Easychocks & Easywedges Prices

A convenient 'Raised Base' for our DoubleZ™, Z Trim, Slim Z, Square and Single.

	1 Bucket	10 + Buckets
Easychock Bucket (approx 250)	£8.91	£7.92 each
Easywedge Bucket (approx 250)	£6.68	£5.93 each
Easychock Bucket (approx 1000)	£33.42	£31.19 each
Easywedge Bucket (approx 1000)	£24.51	£22.28 each

Product

- For use when installing carpet using the stretch fit method.
- Both products are 3mm in thickness, raising the 1mm profile bases up to 4mm.
- The MDF Spacers or Easywedges are supplied with every order of Double Z, Slim Z, Ali Tramline Z, Square and Single profiles.
- Easywedges and Easychocks are also available for purchase in buckets of 250 or 1000.

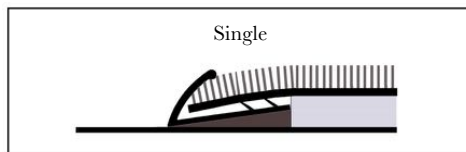

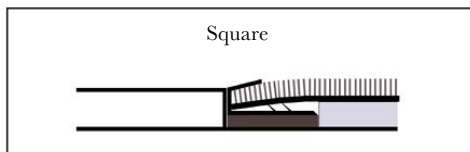

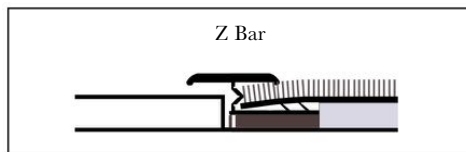

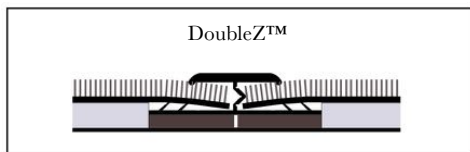

Installation

- Cut down the spacer and place under nail holes to achieve a raised base of 4mm.
- By placing a wedge under each nail hole the profile will raise the back pins up to 4mm, whilst still keeping the leading edge of the profile flush to the floor.
- Easy Wedges can also be used to accommodate various heights when using the Ali Tramline Z, by placing a wedge under the anchoring pins the front edge will lower.

ANY QUESTIONS
Please call 01207 591176 For friendly expert advice.

	270cm	£63.69	£80.01	£57.33	£72.00

Carriage paid on 3 and over. Less than 3, add £8.95 for carriage, unless ordered with other items.

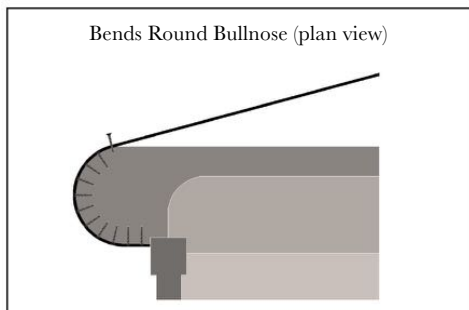

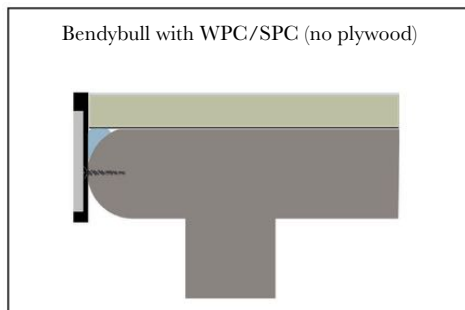

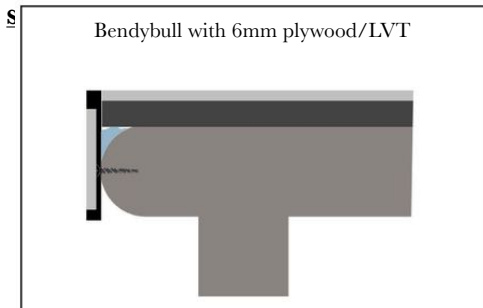

Product

- Base material high quality brass.
- Innovative bend onsite finishing profile
- Available in 4 recess options 2.5, 3, 4 & 5mm dependant on flooring thickness.
- Pre-drilled and countersunk.
- Mitring the Bendybull will produce a sharp corner and will need some form of corner protector or consider using the Ali Wrap Nosings as an alternative.
- Supplied with a high-grab, anti-plasticiser contact tape to secure the inlay.
- Supplied with Spax M self drilling screws (requires T20 star bit). Do NOT pre-drill.

Installation

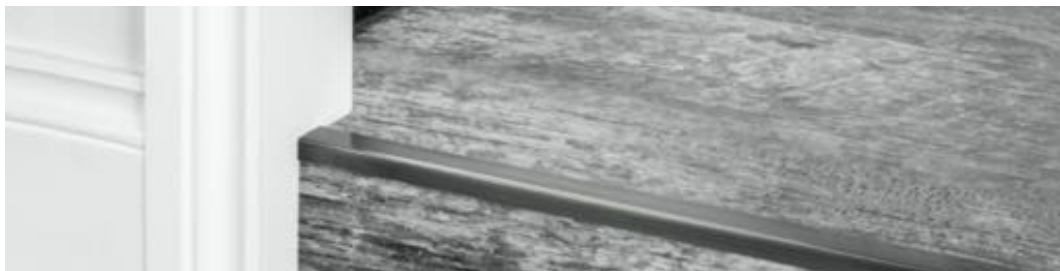

- Form a pre-bend prior to fixing.
- Mechanical primary fixing backed up by an adhesive secondary fixing.
- We recommend viewing our installation video before installing the Bendy Bull.
- **Watch our installation video at www.stairrods.co.uk for more information.**

The Product

- Base material high quality aluminium.
- 6 options available dependant on flooring thickness.
- Loose laid, slots together via the 2 dovetail joints.
- Allows the flooring to expand and contract without resistance.
- Fits a 15mm Radiator pipe.

Installation

- Simply cut the required flooring to size and place into the recess.
- The use of an adhesive can be used to secure the inlay.
- When using a hole saw the inner circumference is required to achieve the correct size.
- Hole saw size guide: (allowance of 2mm blade thickness)
 - 3mm Recess 44mm diameter = 48mm hole saw.
 - 5mm Recess 44mm diameter = 48mm hole saw.
 - 8mm Recess 44mm diameter = 48mm hole saw.
 - 10mm Recess 44mm diameter = 48mm hole saw.
 - 12mm Recess 44mm diameter = 48mm hole saw.
 - 15mm Recess 48mm diameter = 52mm hole saw.

Ali Zee Bar

Technical

Product

- The Stairrods Zee bar has been designed to produce an aesthetically pleasing invisible turn when installing carpet where no visible fixings are desired i.e. against open spindles etc.?
- Manufactured from high quality aluminium.
- Designed to nap down, clamping the carpet firmly into position.
- 9mm gully allows for carpet to be turned with ease.
- Uses gripper to secure into position, providing optimal strength.

Installation

- Place the zee bar under the gripper and affix.
- Cut carpet allowing for a minimum turn of 15mm.
- Tuck the excessive carpet under the lip.
- Dress down using a block of wood to clamp the carpet into position.

Carriage paid on 5 and over. Less than 5, add £8.95 for carriage, unless ordered with other items.

- Available in 3 widths
- 50m rolls
- Carpet and Flooring tape suitable for runners, Ali Zee bar and LVT risers and Scotia.

Pallet prices available

Carriage paid on 2 and over on all Geordie Gripper.
For 1 box add £8.95 for carriage, unless ordered with other items.

G7.5 - Blind Gripper Price

120 metres	£29.14
------------	--------

- For use with double stick carpet installations.
- 7.5mm thick to accommodate a variety of underlay thicknesses.
- Made from 25mm wide by 120cm long high-quality plywood.
- Designed for timber subfloors using the 19mm ring shank nails to fix.
- Extra wide to produce a superior hold with added security against movement.
- Consult adhesive manufacturer for recommended adhesive selection.
- Non-branded to reduce the risk of possible discolouration from adhesive reaction.
- Note: If using a 6.5mm Underlay the 1mm difference should be taken into account as this could potentially mirror through on thinner carpet products.

Hook Tape Price

120 metres	£42.16

Post Fitting

Premier Trims should always be fitted with the protective tape on.

If the Premier Trim has been fitted without the tape. It's best to give a quick wipe with White vinegar.

Brass

Remove spills immediately to limit corrosion with White vinegar. Brass will tarnish over time and we recommend a polishing cloth such as HG copper shine cloth available from most DIY stores. Avoid contact with floor coverings.

Should corrosion appear, we use a Mirka Total Finishing pad P1500 (grey). Rub the area to remove contamination and buff up with HG copper shine cloth. If in doubt, please email sales@stairrods.co.uk

Satin Brass

Remove spills immediately to limit corrosion with White vinegar. Brass will tarnish over time and we recommend a polishing cloth such as HG copper shine cloth available from most DIY stores. Avoid contact with floor coverings.

Antique bronze

Remove spills immediately to limit corrosion with White vinegar. Brass will tarnish over time and we recommend a polishing cloth such as HG copper shine cloth available from most DIY stores. Avoid contact with floor coverings.

Should corrosion appear, we use a Mirka Total Finishing pad P1500 (grey). Rub the area to remove contamination and buff up with HG copper shine cloth. This may go down to the solid brass base however over time the 'rubbed' lighter area will tarnish/blend into the antique finish. If in doubt, please email sales@stairrods.co.uk
