

thermofoil
UNDERLAMINATE FOIL

Thermofoil is a super thin underfloor heating foil designed to bring the underfloor heating experience to laminate flooring.

- ✓ 8 conveniently sized kits available
- ✓ Unique TwistedTwin™ heating cable
- ✓ Safe for use in wet areas
- ✓ Unique patented fixing strip
- ✓ Simple installation process
- ✓ Adjustable output

SUPER THIN UNDELAMINATE FOIL

Thermofoil is specifically designed to give the perfect spread of heat when installed under floating laminate flooring and engineered boards.

Thermofoil comes in 500mm wide strips in lengths from 1 – 10m and at less than 1mm thick, is perfect for applications where height build up matters.

It is important that items of furniture used in rooms with underfloor heating have legs or 'bun feet' to ensure adequate airflow under the item of furniture to dissipate the heat.

ENHANCE EVERY PROJECT

Enhance your project with Thermofoil® premium quality underlaminating foil. The Thermonet® experience guarantees a hassle free installation and ultimate comfort.

INCLUDED IN THE RANGE

- Thermofoil™ 100W/m²
- Thermofoil™ 150W/m²
- Vapour Barrier
- Heat Pak
- Fixing Tape
- Rigid Insulation Board

WHAT'S IN THE BOX?

- Thermofoil Mat
- Instruction Manual
- Touchscreen Thermostat and conduit kit (if purchased)

FLEXIBLE SIZING

Thermofoil under laminate heating mats are available in standard lengths up to 10m and we can manufacture a bespoke Thermofoil mat to order if required.

If you need a shorter length of Thermofoil that falls in between our size range you can simply cut it to length on site. Refer to the Thermofoil installation guide for detailed instructions on how to do this safely.

EASY INSTALLATION

Thermofoil comes on the roll and ready to fit. You can be assured of a fast and easy installation whatever your room shape.

PRIMARY HEAT SOURCE FOR NEW BUILDS

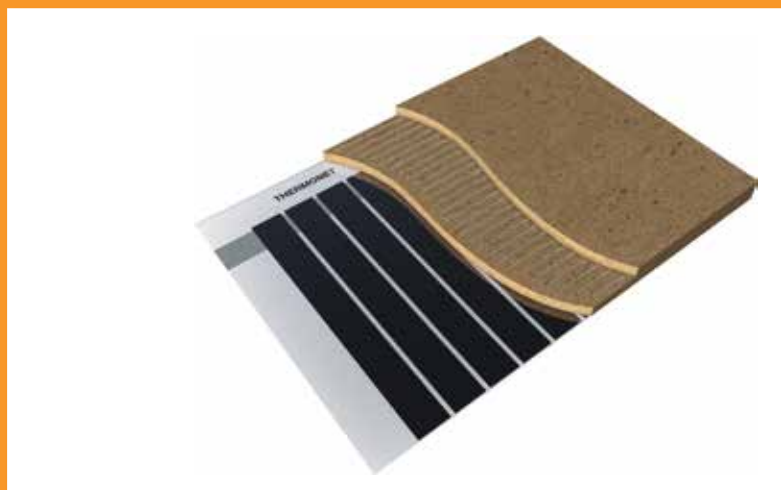

Thermofoil 100W/m² is ideal for use as a primary heat source in new build projects insulated to the required level.

Thermofoil 150 W/m ²			
STOCK NO	SIZE (M)	AREA (M2)	OUTPUT (W)
5350	1.0 x 0.5	0.5	75

Heat Pak Performance Underlay

Heat Pak is a low resistance, free floating sub floor specifically designed for installation over all kinds of underfloor heating systems. This unique product provides a stable sub floor for laying all kinds of floor finishes. Heat Pak provides a smooth and seamless subfloor that protects both your floor finish and underlamine foil system.

Use with different finishes and substrates...

You can install underfloor heating over timber or concrete substrates under a wide range of finishes including tiles, wood, carpet or vinyl. Always check suitability with your flooring manufacturer.
