Subject: Barefoot Customer Information

2 pages

Barefoot is a luxury hand woven product. The handcrafted nature of this range gives Barefoot its charm however, we would like to make you aware of product information before the carpet is supplied.

All Barefoot products

- Hand woven carpets are not for everyone and do not display a machine made finish. Like all natural fabrics, these craft products are not uniform and can show irregularities and imperfections on the surface.
- Joining or seaming a hand crafted carpet can prove difficult as the pile height may not be exact.
- Barefoot carpets are made predominantly from un-dyed yarn and whilst our quality control procedures check for colour tolerances, slight variations in the colour from the sample provided can be expected.

Product specific

- **Barefoot Taj** – due to the high viscose content and luxury finish; this carpet will show signs of shading.

Please sign below (on behalf of your company) to say you are aware of the points above.
