 Bed 4 = 4.35 x 5m  
 Master = 13.20 x 5m

Replacement  
 Carpet.

MAKE SURE  
 SEAMS ARE  
TIGHT

## Fitting Instructions – Elling & co/Shah S28957 & R17695

### New Carpets

1. **Cut landing carpet out of existing master bedroom carpet before uplifting (See Plan) and fit on to first floor landing using s/naps at all doorways.**
2. Replace carpet to master bedroom.
3. Replace carpet to bedroom 4.

### Snagging List – please complete on site

**Bedroom 2** – Please try to clean grease mark from carpet by en-suite with solvent.

**Bedroom 3** – Just check edges are smooth on gripper.

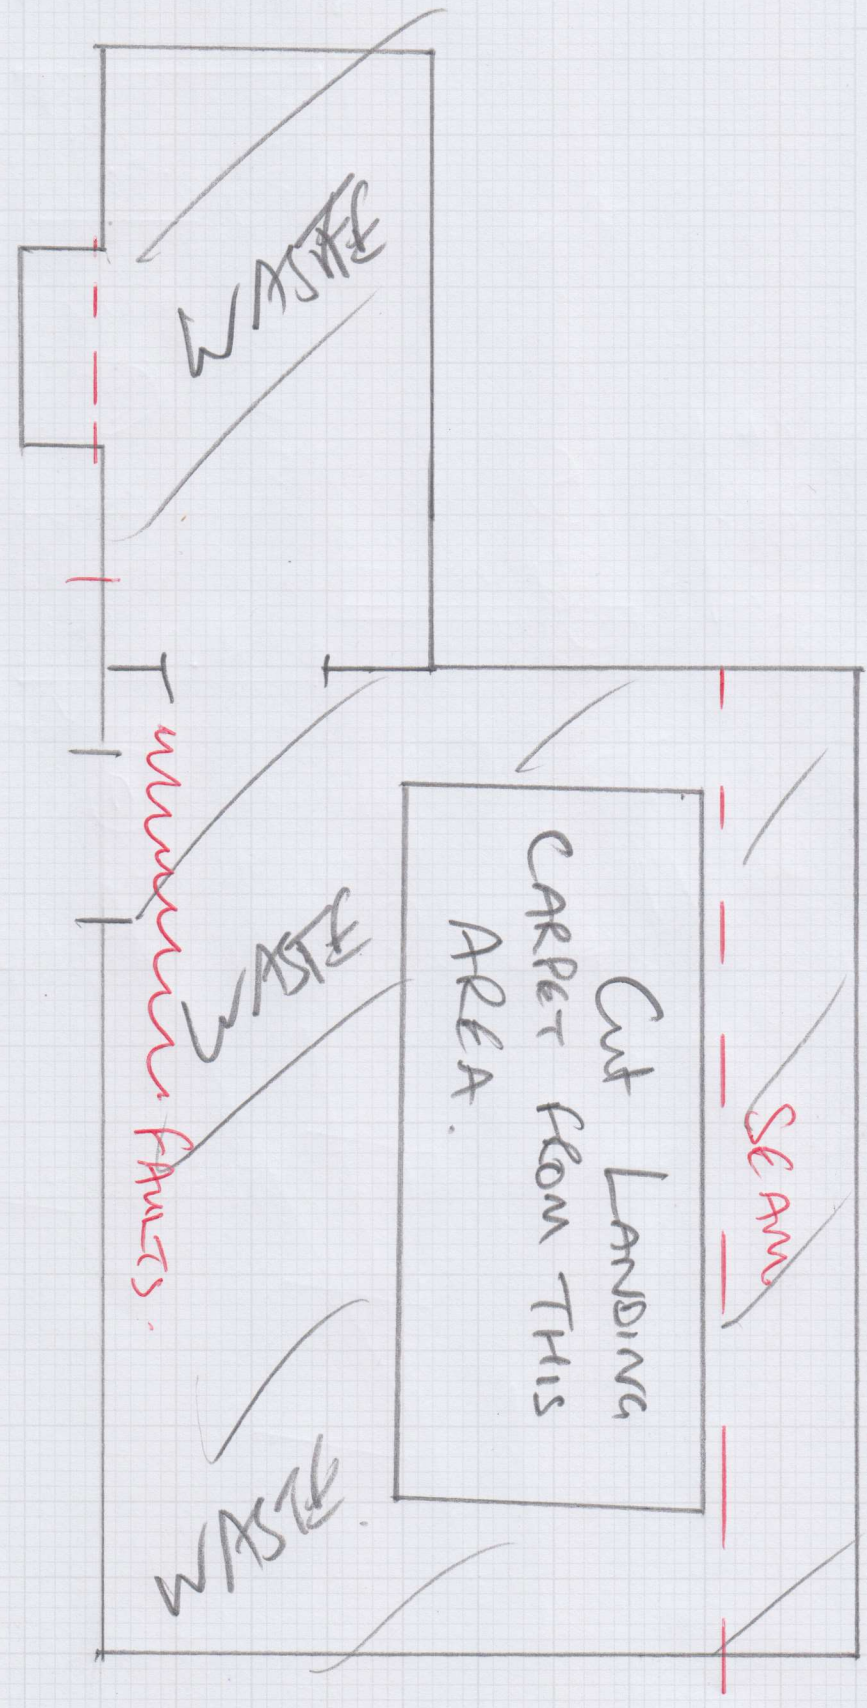

**Prayer room** - Customer pointed out cutting around pipes. DG explained that's normal and need boxing in if finish to be improved. **NO ACTION REQUIRED**

**Games Room** – Customer pointed out bar not straight – Please check to see if it can be straightened but I think the tiles are not straight in the doorway.

Fit d/naps at cupboard doors please.

**Bedroom 4** – Replace carpet & damaged door bar where dented.
