Alan please sort these matters on the day of your fitting:

- 1) Fit carpet back into door bar at rear bedroom.
- 2) Fit an Ali s/n to middle bedroom where customer has removed carpet and exposed floor Boards.
- 3) To cut and tack current b/n under nose rather than to the floor as it is at present. The customer is to remove the existing beading prior to our arrival as discussed and agreed on site during my measure.
