Hi Jazmine,

I will leave a key in the TOP Box (there are two boxes) tomorrow evening. The code for the TOP box is 1836. They need to enter this and then pull the little lever down to open the flap.

Can they please close the flap and scramble the code after they have taken the key out?

We should still be open when they drop the key back so if they can drop it in to us rather than using the box that would be much better!

As you stand in front of our offices looking at our office then the boxes are on the right of the building on the side wall. They are situated just between two electrical / telephone type street cupboards against the side of the building.

Hopefully this helps.
