STAIR RUNNER ORDER FORM

Left: the runner has a fixed width, which means the distance from the carpet to the edge varies around corners and bends. The line marked **A** is the width of the runner.

Right: the runner has a fixed perimeter from the edge, which means the width of the carpet varies around corners and bends. The line marked **B** is the width of the perimeter between the runner and the edge.

IMPORTANT NOTE

The process of fitting stair runners to a staircase requires the gripper fixings to be nailed and the carpet is hammered into the gripper to tension the carpet. This process can cause minor cracks in the painted edges. Whilst every care is taken by our installers we cannot be held responsible if the paint at the edges requires touching up after installation.
